Melanoma Detection, Treatment Center to Open at Mount Zion

A UCSF program to care for the growing number of people with melanoma will open in October at Mount Zion. The Melanoma Detection and Treatment Center is the first component of the regional cancer center which the campus is developing at Mount Zion.

The Melanoma Center will offer consultation to patients and evaluate suspicious moles and lesions, which may be warning signs of the most serious form of skin cancer. In its early stages, melanoma is generally curable, usually by surgical removal of the moles or tumors. If it spreads, however, malignant melanoma is one of the most difficult cancers to treat.

The Melanoma Center will work closely with referring physicians to offer individualized care to patients. UCSF doctors will make treatment recommendations for all stages of the cancer, and share in follow-up, if requested. For patients with advanced cases of melanoma, new aggressive and experimental therapies will be offered.

The new center, to be directed by Richard Sagebiel, professor, pathology and dermatology and a nationally known melanoma expert, is an expansion of a nearly 20-year-old UCSF program.

The UCSF clinic, one of only a dozen of its type in the country, was started in 1971 as a multispecialty consultation service to help coordinate the often fragmented care available to melanoma patients. Over the years, it

$3 Million from Keck Foundation to Study Brain & Behavior

The W. M. Keck Foundation of Los Angeles has given UCSF $3 million to establish a center that will combine studies of the brain and behavior in an effort to uncover the biology underlying some of our most serious health problems, including Alzheimer's disease and Parkinson's disease. The new center will be called the W. M. Keck Foundation Center for Integrative Neuroscience.

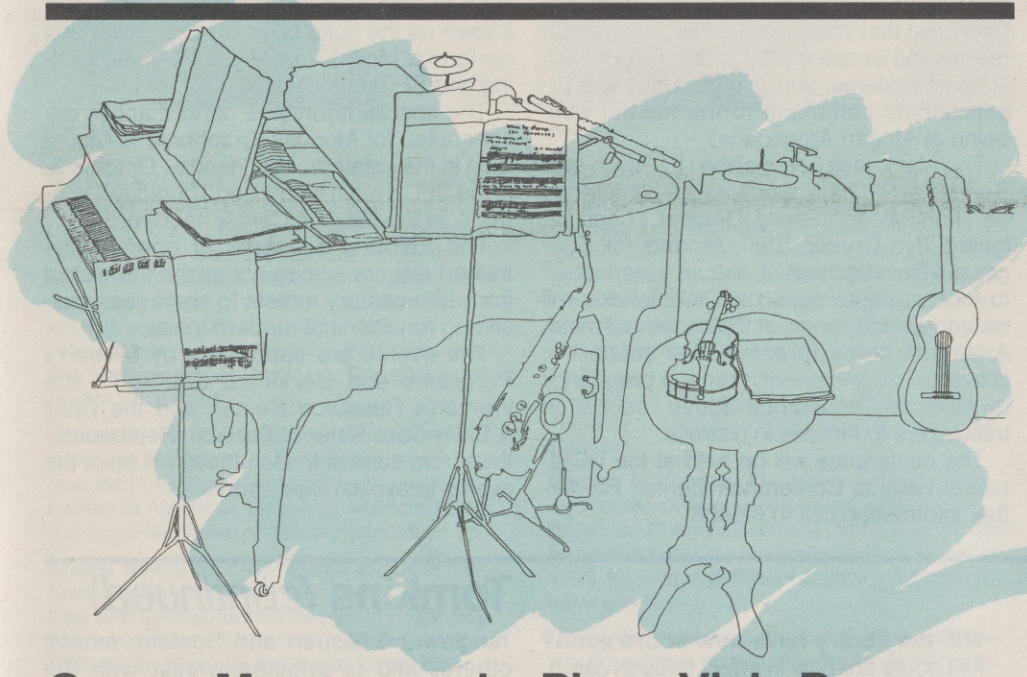
The main goal of the center is to find out how nerve cells in the brain work together to generate behavior. These principles underlie everything from how we see, hear and speak to how we learn, and how our brains recover from injury.

What makes the center unique is its emphasis on bringing together many areas of brain and behavioral research, linking basic cellular studies of brain neurons with studies of the brain and spinal cord networks that control reflexes, the senses and pain. An important aspect of the research will be computer modelling of the brain as a tool to understanding it.

"We think this is the future of neuroscience," says Stephen G. Lisberger, professor of physiology, who will direct the center. "Studies of the brain have advanced to the point where we now can start to connect the areas, in order to understand human behavior such as memory and learning, vision and hearing," he says.

Thanks to the Keck grant, our campus will be able to bring a group of laboratories together in one location to foster greater collaboration and interaction among them. "At UCSF we have some of the country's top neuroscientists, each using his or her own approach to understanding how the brain works," Lisberger says. "Bringing them all together will promote sharing of these techniques and approaches."

The center also will focus on training a new generation of multidisciplinary neuroscientists who are armed with a combination of these skills.



Genes, Memory and a Piano-Viola Duo Highlight Tomkins Concert/Lecture

Noted neurobiologist Eric R. Kandel will lead off this year's Gordon Tomkins Lecture & Concert on Monday, October 15, from 3 to 5 p.m. in Cole Hall with a discussion on "Genes, Nerve Cells, and the Remembrance of Things Past," based on his research on the cellular basis of memory and behavior.

It will be followed by a performance by the piano-viola duet of Leslie Tomkins, daughter of the late Gordon M. Tomkins, and her husband, conductor and pianist Michael Barrett. They will play The Brahms Sonata in E flat Major, Opus 120, Number 2, and the Leonard Bernstein Sonata (1941-42).

Professor and director of The Center for Neurobiology and Behavior at the College of Physicians and Surgeons of Columbia University, Kandel pioneered the use of the marine snail *Aplysia* in studies of learning and memory, taking advantage of the snail's relatively small number of large nerve cells. He has described the operation of three basic forms of learning in the snail—habituation, sensitization and classical conditioning, in both short- and long-term memory processes.

Leslie Tomkins is a graduate of the SF Conservatory of Music and the Mannes College of Music, where she studied viola with Karen Tuttle. As a recitalist and chamber musician she has participated in festivals at

(continued on page 2)

Get to Know the Supervisorial Candidates; Campus Forums Oct. 4, 11

Five seats on the San Francisco Board of Supervisors soon will be open. With only two incumbents running, that leaves at least three new supervisors to fill those seats. Depending on how San Francisco residents vote, the Board's character could significantly change. Do you have enough information on the candidates to make a good choice?

You'll have the opportunity to find out about 12 of the Board of Supervisors candidates at two Supervisorial Candidate Forums on Thursday, October 4, in Toland Hall and the following week on Thursday, October 11, in the Millberry Union Conference Center, both from noon to 1 p.m.

San Francisco Supervisorial candidate Kevin Shelley is a staunch supporter of neighborhood improvement, but how does he feel about the future plans of UCSF? Candidate Carole Migden is well known in democratic circles and the gay community, but does she agree with the University when it comes to Laurel Heights?

These are the kinds of questions you might want to pose to the candidates. You'll be able to get a general feeling about what each candidate is like, plus how they feel on particular issues—involving the entire City, the University, individual neighborhoods.

Six candidates have been invited to each of the two forums. The first forum on October 4 will include: James Lazarus, attorney and vice president for public affairs for the SF Chamber of Commerce; Jose Medina, executive director, Instituto Laboral Legal Foundation; Carole Migden, chair, Democratic Central Committee; Kevin Shelley, director, SF Alive, a neighborhood improvement group; Arlo Hale Smith, SF's representative on the BART Board; and Doris Ward (incum-

"Is the New Library Really a UCSF Building?"

That is one of the questions being asked the staff of our new library. And there are more . . . a lot more . . . from "Where is the card catalog?" to "Where are the clocks?"

"Many of the questions are about the copy machines and how to use them. Also, how to get a library card," says library assistant John Phillips, one of the first people you see as you go by the circulation desk. "Some people just want to know how to get upstairs."

"A lot of people don't realize that as they enter the main floor of the library they are actually on the third floor," says Lydia Jensen, education officer and reference librarian. "Also some people are confused that this is the reference desk, not the circulation desk, so they think they can check out books here."

Lydia says that most of the questions have to do with how to find a particular journal or book. She explains that because there is no longer a card catalog and everything is computerized, people need to use terminals in order to find what they need. "Demos and classes are going on all the time explaining how to use the system," she says. "And because of the way the system is set up, especially for UCSF books, people can find what they need pretty quickly."

In an effort to help all the library users get around the new building with a little more ease (and maybe at the same time take a little pressure off our library staff), here is a list of the questions most frequently asked of

(continued on page 2)

See Inside Features Section!

UCSF 100 YEARS OF PARTNERSHIP

We Just Said No to Lunch

Just by saying no to lunch two days last week, the campus raised over $1,000 to send to Project Open Hand to help feed home-ridden AIDS patients. And that was only from on-the-spot donations. Some 100 envelopes still are coming in. UCSF volunteers included (seated left to right) Gloria Alonzo, patient relations; Jean Fong, LPPI; Cindy Lima, facilities planning; Hannah Brodzinsky, patient relations; Pamela Zilavy, campus planning; Jim Calvert, medicine; (standing) Susan Wolf, microbiology; Richard Roginski, patient relations; John Smith, personnel. Most of these people also are part of UCSF Route 39. Every Thursday night they pair off and drive meals from Project Open Hand to AIDS patients in the Nob Hill area. More volunteers are needed. By the way, if you signed up to volunteer at the table in the Med Sci lobby, that list has been lost. *Please call Cindy Lima at 476-4073.*

First Sheline Lecturer

Brain tumor expert Michael D. Walker (left), director of the Division of Strokes & Trauma, National Institute of Neurological Disorders and Stroke, NIH, was honored on September 13 as the first annual Glenn E. Sheline Lecturer. The lectureship honors a member of the UCSF faculty for some 40 years who was a world leader in the field of neuro-oncology. Sheline was among the first to develop and promote radiation therapy as effective treatment for brain tumors. He died in 1989. The lectureship is co-sponsored by the Departments of Neurological Surgery and Radiation Oncology, of which William Wara (right), is vice chair.

An Evening in Russia

Victor Shikaloff (right), manager of The Russian Center of San Francisco, serves flavored vodkas to donors and special guests of the School of Medicine. The September 14 gathering attracted some 270 of the School's major donors—now called the Dean's Associates—who were treated to a vodka-tasting bar, a traditional Russian family-style dinner and Russian folk dancing and music. It was the first annual event hosted by Dean and Mrs. Joseph B. Martin to honor the group.

"No Crystal Stair" Oct. 11-12

African Americans have for the last several hundred years suffered the blows of racism. How have they compensated for the stress of racism and its associated problems? How do support systems, family, community and organizations contribute to the mental well-being of African Americans?

The Black Task Force of the UC Psychiatric Service at SFGH is sponsoring a conference on Thursday and Friday, October 11 and 12, called "No Crystal Stair: Models for Successful Development of African Americans," to look at these questions. Workshops will include a wide range of topics, from African American heros to community support in character development, teenage pregnancy to AIDS and substance abuse, education trailblazers to families in distress.

The conference will be held at the UCSF Laurel Heights Conference Center. For further information call 476-5808.

The Edlos at SFGH, MCB, Mount Zion

Hold onto your hats . . . the newest singing rage of San Francisco, The Edlos, better known as the "bad boys of a cappella," will perform at Mount Zion, Mission Center Building and SFGH next week.

The special noon-time performances are scheduled for Monday, October 1, at Mount Zion in the cafeteria; Wednesday, October 3, in the SFGH main lobby; and Thursday, October 4, in the Mission Center courtyard.

The Edlos is a quartet of operatically-trained singers whose act spans the gamut from 15th century motets to some real soul-stirring renditions of modern tunes.

The events are sponsored by Millberry Programs and Services, EMPACT!, the Women's Resource Center, and the Child & Elder Care Referral Service. Representatives from each of these offices will be at the events to explain their services.

Library Questions *(continued)*

the people at the circulation and reference desks. With, of course, answers to those questions.

Is a UCSF ID necessary to enter the library?

No, it's open to the general public except for the Media Center and the Reserve Collection.

Who gets to use the library and how do I get a card?

In order to get a book out of the library, you need a library card. All UCSF people—faculty, staff and students—are eligible for courtesy library cards. In addition, people from other UC campuses, UC alumni, UC retired faculty and staff, licensed Bay Area health professionals (including those retired), and faculty from other California higher learning institutions are eligible for these cards. However, the use of the Reserve Collection and the Media Center is limited to UCSF people only.

Residents of California who are at least 18 years old who do not fit into the above categories may purchase a card for $50 a year ($24 for college and advanced degree students).

To get a card, you need only take a form of ID (preferably with a picture) to the circulation desk. UCSF students only need to present their current registration card to check out books.

Where are the copy machines and do they still work with coins?

There are no coin-operated machines in the library. Self-service copy machines are in an area on each floor of the library. The main copy center is on the second floor and includes a cashier's office where you can buy a copy card. Prices: 100, 200, 500 copies at $7.50, $15, $37.50 respectively for UCSF personnel. Every UCSF student this fall will receive a card for 100 free copies. You do not need a library card to get a copy card.

Are some books locked up?

Yes. You need to request material from the Reserve Collection, the Media Center, rare books and manuscripts in Special Collections and the Rare Oriental Collection.

Which computers print and which ones don't? And will more be added?

There are five computers on the third floor in the GALEN room which print. There are a few more in the Media Center on the second floor attached to MACs and PCs. More will be added. In fact, eventually every sit-down station should have a printer.

Where are the restrooms? The public telephones? The house phones?

On each floor of the library, around the corner from the elevators, southeast side of the building.

Where do the library tours begin? What are the hours? Will they continue for a while? Is there a weekend schedule?

Tours are 45 minutes and begin on the third floor near the circulation desk. Through October 5, tours will be daily at 9 a.m., noon and 2 p.m. Beginning Tuesday, October 9, tours will be every Tuesday at 9 a.m. and Wednesday at 2 p.m. Groups of 10 or more can arrange special tours by calling Nola Yee at 476-2534. Sorry, no tours on the weekends.

NOTE: The library staff urges everyone to take a tour. It's the best way to familiarize yourself with the building and its services. Some 30 library employees have volunteered to give tours. Are the tours popular? You bet. Jackie Wilson, head of resource services, estimates an overwhelming 3,000 people have taken them so far.

Will the library have new hours soon?

Fall hours are now in effect through Jan. 1: Mon.-Thurs., 8 a.m.-11 p.m. and 11 p.m.-midnight for reading only; Fri., 8 a.m.-11 p.m.; Sat., 8 a.m.-5 p.m.; Sun., noon- 11 p.m. and 11 p.m.-midnight reading only. Certain services within the library have their own hours. Be sure to ask for a schedule.

What is the difference between GALEN, MEDLINE and MELVYL?

GALEN is a the general overall computerized system which provides a gateway to the UCSF library databases. Through GALEN you can access books and journals at UCSF as well as the MELVYL system. Under the MELVYL system are MELVYL/MEDLINE and MELVYL Current Contents.

MELVYL/MEDLINE has information on the contents of articles in biomedical journals throughout the world. MELVYL catalogue has holdings for journals and books available in other UC libraries.

You do not need a library card to access these systems.

How do I get to know the new GALEN system?

Library seminars now are available to explain MELVYL, MEDLINE and GALEN. Schedules are available at the reference desk.

Where are the clocks?

Not up yet, but soon will be.

Is this really a UCSF building? It's too nice looking.

Yes. The State gave UCSF $25 million to build the library. Another $10 million was donated from friends of the campus and corporations, which has allowed us to build something, well let's not be modest, beautiful.

Tomkins *(continued)*

Tanglewood, Aspen and Spoleto, among others, and is principal violist with the Tchaikovsky Chamber Orchestra.

Both a conductor and a pianist, Barrett has made numerous appearances with orchestras such as the Orchestre Nationale de France and the American Symphony, and has recorded with the Brooklyn Philharmonic. He served as assistant conductor to Leonard Bernstein at the Vienna Statsoper, the New York Philharmonic, and during the 1987/88 world tour of the Vienna Philharmonic with the Israel Philharmonic.

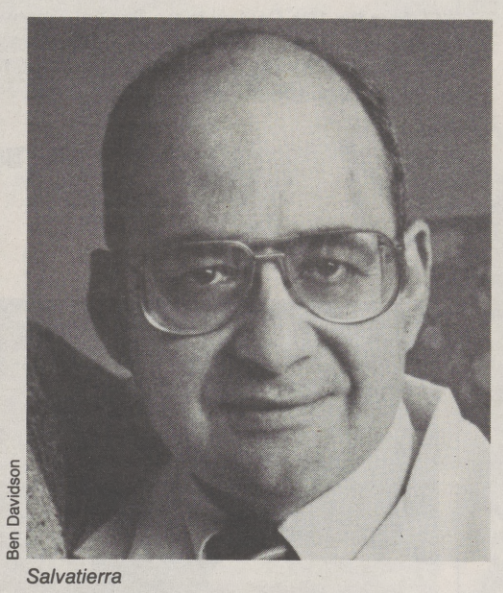
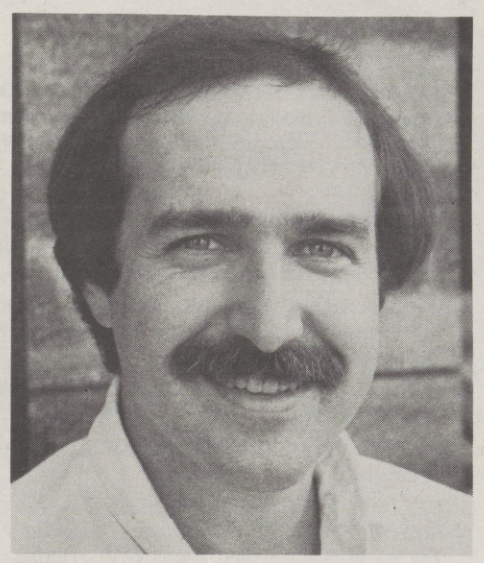
Honors & Awards

Israel

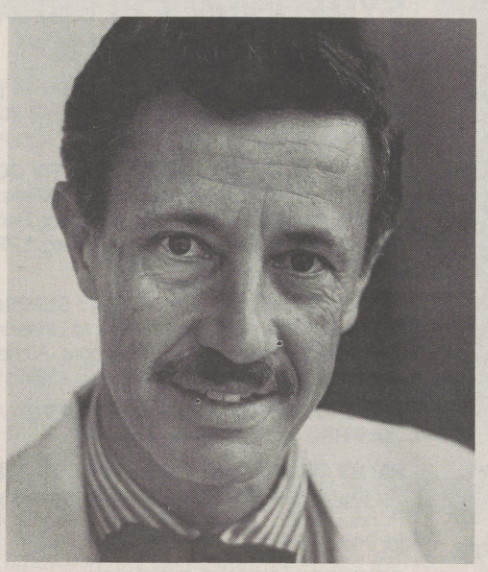


Ben Davidson

Salvatierra



Tecott

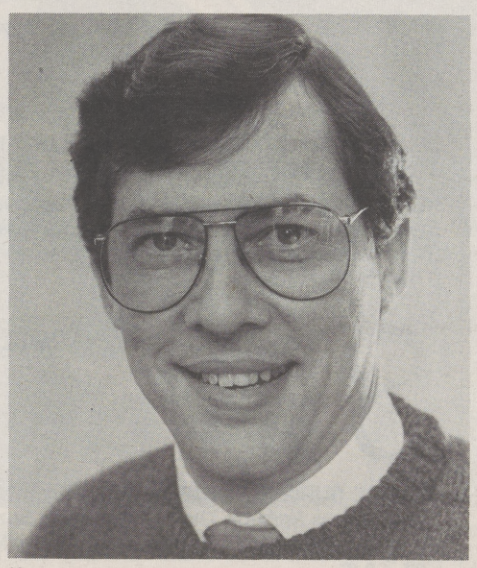


Mikkel Aaland

Newbrun

Mikkel Aaland

Kenyon



Knapp

Mark Israel: Selected as a Wellcome Visiting Professor in the Basic Medical Sciences. Funded by the Burroughs Wellcome Fund, the program is managed by the Federation of American Societies for Experimental Biology, which is composed of seven scientific societies representing over 32,000 biomedical research investigators. Israel is director, Preuss Laboratory for Brain Tumor Research, Department of Neurological Surgery.

Joseph Martin: Elected president of the American Neurological Association, which was founded in 1875 and is the honorary senior society of American neurology. Martin is dean, School of Medicine; professor, neurology.

Ernest Newbrun: One of three alumni of the Eastman Dental Center in Rochester, NY, honored with special awards as part of Eastman's 75th anniversary. An Eastman fellow from 1955-57, he received the award for special distinction in dental education. Newbrun is professor, oral biology & periodontology; lecturer, biochemistry.

Frank Longo: Received an American Paralysis Association award, a United Cerebral Palsy grant award and the UCSF Edwin Boldrey Award for Basic Science. Longo is assistant professor in residence, neurology.

Clifford Attkisson: Elected fellow of the American Psychological Association by the APA Division of Community Psychology. Attkisson is professor, medical psychology; associate dean, Graduate Division.

Oscar Salvatierra, Jr.: To be honored for his outstanding contributions to the field of organ transplantation at a dinner-dance on Oct. 13 at the Fairmont Hotel. The event will benefit the National Kidney Foundation of Northern California's Research Fellowship program. Salvatierra has been instrumental in the development of legislative measures leading to the enactment of the National Organ Transplant Act. Over 3,200 transplants have been performed at UCSF during Salvatierra's tenure as chief, Kidney Transplant Division.

George L. Kenyon: Elected vice chair & chair-elect of the Division of Biological Chemistry, American Chemical Society. He will be vice chair for 1990-92 and automatically becomes chair in 1992. Kenyon is professor & chair, pharmaceutical chemistry.

David Werdegar: Named to the Marin Community Foundation as a trustee for the Buck Trust, replacing John L. Ziegler, who stepped down to accept a Fulbright Professorship at the Makerere University School of Medicine in Kampala, Uganda. In selecting Werdegar, UC President David P. Gardner cited his experience as a former San Francisco Director of Health and his academic career focusing on family & community medicine. Werdegar is professor, family & community medicine; member, Institute for Health Policy Studies.

Laurence Tecott: A third-year resident in psychiatry, he has been chosen as a 1990 National Institute of Mental Health Outstanding Resident. He was one of 14 residents across the nation selected on the basis of achievement in research and academics. In addition to his clinical training, Tecott is studying brain serotonin systems research—a key component of the interface between mental illness and neurobiology—with biologist David Julius of pharmacology.

John F. Knapp: Elected president of the Continental Conference for Continuing Dental Education for 1990-91 at the organization's annual meeting in Newport Beach Aug. 2-5. Knapp is associate dean, continuing dental education & alumni affairs, School of Dentistry.

Harlan E. Ives: Received the 1990 Marion Young Scholar Award from the American Society of Hypertension in recognition of his achievements as an investigator and leader. Ives is chief, nephrology; associate professor, medicine & pharmacology.

Publications

Michael L. Callaham, Christopher Barton, & Henry M. Schumaker: Co-editors, *Decision Making in Emergency Medicine* (B.C. Decker, Phila. 1990). Callaham is chief, emergency medicine; professor, medicine; Barton is assistant clinical professor, medicine; Schumaker is clinical assistant professor, medicine; attending emergency physician & director of quality assurance, emergency medicine.

Kent R. Olsen: Editor, *Poisoning & Drug Overdose: A Lange Clinical Manual* (Appleton & Lange, Norwalk, CT & San Mateo, CA, 1990). Olsen is assistant clinical professor, medicine; medical director, Poison Control Center, SFGH.

Maurice Sokolow, Malcolm B. McIlroy & Melvin D. Cheitlin: Co-authors, *Clinical Cardiology, 5th Edition* (Appleton & Lange, Norwalk, CT & San Mateo, CA, 1990). Sokolow is professor emeritus, medicine & senior staff member, CVRI; McIlroy is professor, medicine & senior staff member, CVRI; Cheitlin is professor, medicine, associate member, CVRI & associate chief, cardiology, SFGH.

Get Your New ID Card

UCSF will convert to a new photo ID system during October and November. The Police Department will issue these free cards to all faculty, staff and students in locations on and off campus from 9 a.m.-1 p.m. and 2-4 p.m. The schedule for October 1-12 is: Mon.-Wed., Oct. 1-3 and Oct. 8-10, Police Department, Millberry Union West, 3rd floor; Thurs.-Fri., Oct 4-5, Laurel Heights Chancellor's Conference Rm.; Thurs.-Fri., Oct. 11-12, Medical Sciences lobby. The schedule for the remainder of the two months will be printed in the next issue of *Newsbreak*.

Departments need to complete a personnel ID request form for each card requested. For more information call Linda Metts, 476-2454.

Candidates Forums *(continued)*

bent), chief consultant to the Assembly Select Committee on Regional Government.

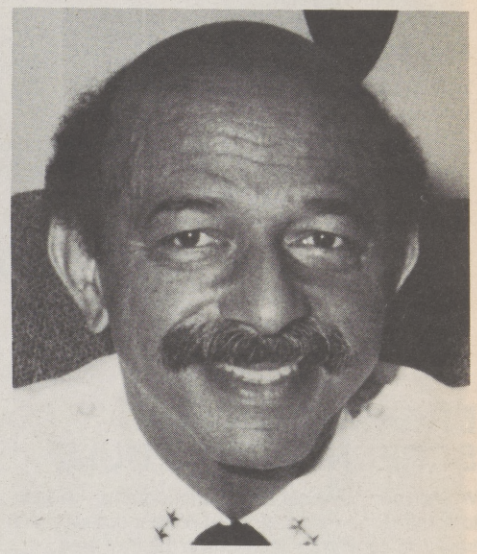
Slated for the October 11 roster are: Roberta Achtenberg, civil rights attorney and executive director, Lesbian Rights Project; John F. Figone, investment consultant and member, Democratic Central Committee; Bill Maher (incumbent), attorney and former member, SF School Board; Carol Ruth Silver, real estate agent and former supervisor; Joel Ventresca, airport budget policy analyst and community activist; Vu-Duc Vuong, director, Center for Southeast Asian Refugee Resettlement.

The forums are sponsored by the Office of Public Service Progams, Academic Senate, Academic Business Officers Group, UCSF Council, Council of Minority Organizations, Staff Advisory Council, Graduate Students Association and Associated Students of UCSF. For further information call Orlando Elizondo at 476-3206.

Geriatric Resource Directory Available

A limited number of copies of the 1990 UCSF Resources in Geriatric & Gerontology directory are available to interested members of the campus community. The 87-page directory was compiled by the UCSF Academic Geriatric Resource Center (AGRC). It describes courses, clinical training opportunities, continuing education programs, research projects and public service activities available on campus in geriatrics/gerontology. To obtain a copy call the AGRC office at 476-9876.

Appointments



Nelson

Ron Nelson: Appointed Chief of Police for UCSF effective October 1. For the past eight years, Nelson has been chief of police for the city of Berkeley. Prior to that, he was a lieutenant in the Los Angeles Police Department, a police commander, assistant city manager and city manager for the City of Compton, and chief of police for the Naval Weapons Center at China Lake, CA. He also taught Administration of Justice at the Cerro Coso Community College. Nelson replaces Mike Brant, who has been serving as interim chief for over a year.

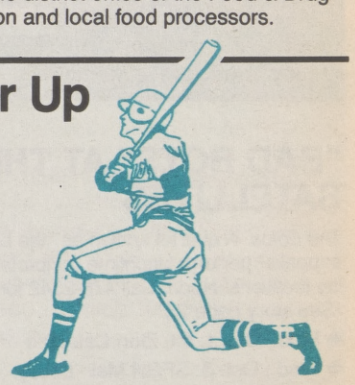
In Memoriam

Raleigh Lage: Came to UCSF as a clinical assistant in medicine in 1946, became a clinical instructor in 1951 and was promoted to assistant clinical professor in 1956. Lage maintained a cardiology practice in the East Bay for 43 years, and was a diplomate of the American Board of Internal Medicine, a fellow of the American College of Cardiology and a member of the American and the Alameda County Medical Associations. He was also president of the California Heart Association.

Keith Johnson: An intern and resident in the internal medicine residency training program, he had been honored by students and his peers by being asked to be chief resident for 1990-91. A native of Turlock who came from a family of internists, Johnson was recognized as an outstanding teacher by the medical students in 1989. He earned a Master's of Public Health from UCLA and his medical degree from University of Kansas, and was an avid water sportsman. His friends & colleagues in the Department of Medicine have set up a fund to provide for the education of his three little girls. Donations may be sent to the Keith Johnson Family Trust Fund, c/o Bettie Bowen, Department of Medicine, UCSF, 94143-0120.

Myrna Ensminger: Formerly an administrative assistant II at the Lab for Research in Food Preservation in Dublin, CA, a satellite location of the Department of Epidemiology & Biostatistics, she came to UCSF in 1981 and retired in 1989. She performed administrative tasks and all secretarial duties for the lab, was responsible for tracking all correspondence and samples and dealt extensively with the district office of the Food & Drug Administration and local food processors.

Batter Up



Tryouts already have begun for the UCSF Cubs Little League baseball team. If you have a child, or know of one, who will be 13 years old by next April and no older than 14 by next August, and is interested in trying out, call manager John Davis at 731-5072 or coach Peter Queseda at 665-8247.

BREAST CANCER SCREENING SCHEDULE

Women can have low-cost mammograms—x-rays to screen for breast cancer—from a mobile van that travels to convenient locations in the Bay Area.

Women need the approval of their physicians to have the mammogram. The procedure takes approximately 20 minutes & costs only $50. To make an appointment call 476-2193 between 9 a.m. & 3:30 p.m.

The van will be at the following locations for the next two weeks:

- Oct. 1-5: Marina Green, in parking lot near Goodwill shed & Ft. Mason.
- Oct. 8-12: Taraval St. between 17th & 18th Aves.

A $50 mammography screening is also available at the Mt. Zion radiology department. Call 885-7777.

HOW TO USE THE LIBRARY DATABASES

Ongoing seminars to explain how to find books, journals & other materials using the GALEN, MELVYL & MEDLINE systems. Register at reference desk, third floor. Class size is limited. Media Center, Rm. 222. (For answers to your questions about the new library, see story on page 1.)*

- Mondays: 10-11 a.m.
- Wednesdays: 3-4 p.m.
- Thursdays: 9-10 a.m.

ALCOHOLICS ANONYMOUS MEETING: All are invited. UCSF-Mission Center (MCB), 3rd fl., Rm. 300C. 12:05 p.m.*

PSYCHIATRY GRAND ROUNDS: *The Ford Foundation Community Study: Trauma & Disability Among Khmer Refugees on the Thai-Kampuchean Border.* Richard F. Mollica, Harvard Prog. in Refugee Trauma; Indochinese Psychr. Clin., St. Elizabeth's Hosp. LPPI Aud. 1-2 p.m.

HEAD & NECK TUMOR CONFERENCE. A 723. 1 p.m.

LABORATORY MEDICINE & PATHOLOGY SYMPOSIUM

DNA Cytometry & Cell Proliferation Analysis. To include 10 presentations. HSW 302. 3-5:30 p.m.

SEMINARS IN BIOLOGY: *How Many Laminins & What Do They Do?* Eva Engvall, La Jolla Res. Fndt. HSW 300. 4 p.m.

CHILD NEUROLOGY CONFERENCE. M 666. 4:30 p.m.

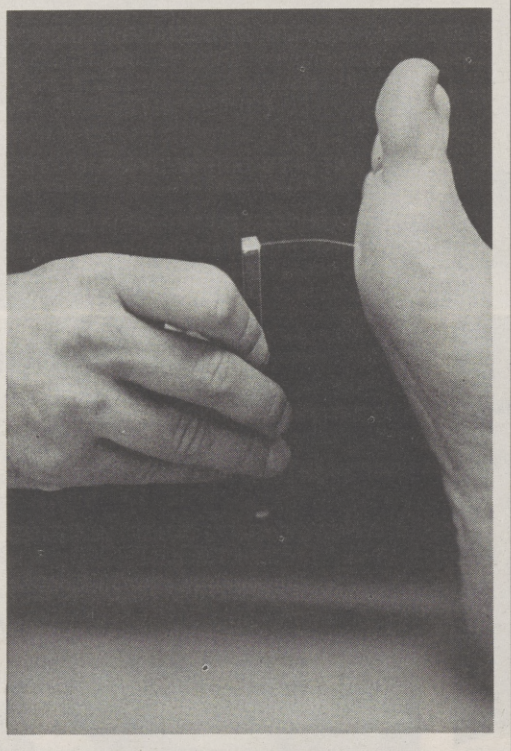
DON'T MISS THE DEADLINE

If you would like items listed in the next calendar, which covers Oct. 13-26, it must be received in our office in writing by Tues., Oct. 2, at 11 a.m. Send your copy to Michele Firpo, Box 0462, or call 476-1541.

SAN FRANCISCO HISTORY CLASS

SF from the 18th Century to the Present. Free weekly classes by historian Charles Fraccia. Sponsored by SF Historical Society. Through Dec. 12. Toland Hall. 7:30-9:30 p.m. Call 567-2725 for information.*

4 Thursday



MEDICINE GRAND ROUNDS: *A Comprehensive Program to Save the Diabetic Foot.* Laurence A. Gavin, Med., & Peter Graf, Pod. Toland Hall. 8-9 a.m.

SFGH NEUROLOGY/NEUROSURGERY CONFERENCE. 4H2, SFGH. 8-9 a.m.

PEDIATRICS GRAND ROUNDS: *Surgical Approach to Childhood Bone Sarcomas.* James E. Johnson, Ortho. Surg. S 664. 8:30-9:30 a.m.

OPHTHALMOLOGY GRAND ROUNDS: *The GAR Syndrome.* John L. Keltner, Oph., Neuro. & Neuro. Surg., UCD. Preceded by case presentations: *Neuro-Ophthalmology.* S 214. 8:30-10 a.m.

SFGH TRAUMA CENTER CONFERENCE. Rm. 4H2, SFGH. 9-10 a.m.

NEUROLOGY/NEURORADIOLOGY CONFERENCE. HSE 317. 10-11 a.m.

PEDIATRIC TUMOR CONFERENCE. L 34. 11 a.m.-12:15 p.m.

ORAL BIOLOGY 220 SEMINAR: *Gastrulation: Some Rules for Morphogenesis.* Raymond E. Keller, Cell & Dev. Bio., UCB. S 664. Noon.

SUPERVISOR CANDIDATE FORUMS OCT. 4 & 11

Attend these forums to meet with many of the candidates running to fill the five open seats on San Francisco's Board of Supervisors. Let's make sure they hear our views and give us their thoughts on how they might work with the campus. Call 476-3206 for information. (See story on page 1.)*

- Thurs., Oct. 4: Toland Hall. Noon-1 p.m.
- Thurs., Oct. 11: Millberry Union Conf. Cntr. Noon-1 p.m.

WITTER LECTURER ON PAIN OCT. 4-5

James N. Campbell, Neurosurg., Johns Hopkins, presents two talks as the sixth annual William Witter Lecturer on Pain. Sponsored by Depts. Neuro. Surg. & Neuro.

- Thurs., Oct. 4: *Neuropathic Pain: A Role for the Sympathetic Nervous System.* HSW 300. 4 p.m.
- Fri., Oct. 5: *Neural Mechanisms of Hyperalgesia: The Reluctant Nociceptor.* Toland Hall. Noon.

BIOCHEMISTRY/BIOPHYSICS SEMINAR: *Mechanism & Structure of a Catalytic RNA.* Thomas Cech, Biochem. & Chem. HSW 301. 4 p.m. Student lunch with speaker at noon in HSE 1554. Sign up in S 962.

MEDICINE/SURGERY ADULT CARDIAC CATHETERIZATION CONFERENCE. L 1361. 4-6 p.m.

ORTHOPEDIC SURGERY STAFF CONFERENCE. A 630. 4-5 p.m.

NEUROSURGERY GRAND ROUNDS. HSW 302. 4-5:30 p.m.

PRIMARY CARE GRAND ROUNDS: *Osteoporosis.* Steven Cummings, Med. & Epid. A 455. 4:30 p.m.

RADIATION ONCOLOGY GRAND ROUNDS: *Professional Liability in the Radiation Oncologist.* Neil Sherman, Radiotherapy, M.D. Anderson Cancer Cntr., U Texas, Houston. L 34. 5 p.m.

RADIOLOGY GRAND ROUNDS: *MRI of Congenital Heart Disease.* Charles B. Higgins, Radio. HSW 301. 5:15-6:15 p.m.

COLE HALL CINEMA: *Pretty Woman.* Children under 14 $2; UCSF students & MU members $2.50; students, seniors & UCSF employees (today only) $3; general $3.50. Cole Hall. 5:45 & 8:15 p.m.*

ALCOHOLICS ANONYMOUS MEETING: Closed meeting: alcoholics only. LPPI A 222. 6 p.m.*

5 Friday

CRI HEMATOLOGY/ONCOLOGY JOURNAL CLUB. M 1296. 8 a.m.

MOUNT ZION MEDICAL GRAND ROUNDS. Herbst Hall. 8:30 a.m.

SYMPOSIUM CELEBRATING THE MOUNT ZION ICN

End of an Era. Didactic & research talks by present & past members of the neonatal faculty & fellows. Herbst Hall. 10 a.m.-5 p.m. (See story page 8.)

CHILD & ADOLESCENT PSYCHIATRY CONFERENCE: *Developmental Brain Abnormalities: New Insights from Modern Radiology.* James Barkovich, Radio., Ped., Child Neuro. & Neurosurg. LPPI Aud. 10:10-11:30 a.m.

PHARMACEUTICAL CHEMISTRY SEMINAR: *Molecular Biological Approaches to Understanding Alzheimer's Disease.* Ivan Leiberburg, Alzheimer's Res., Athena Neuroscience Corp. S 1364. 11 a.m.

ALCOHOLICS ANONYMOUS MEETING: All are invited. HSE 336. Noon-1 p.m.*

PATHS OF HEALING & WHOLENESS SEMINAR: *Co-Dependence: Self-Nurturing & Recovery.* Dennis Portnoy. N 721. Noon. Call Marie Lehrer at 476-3939 for information.*

DENTISTRY DEAN'S SEMINAR: *Neurological Complications of Nitrous Oxide Abuse.* Robert B. Layton, Neuro. S 1364. 12:30-1:45 p.m.

COLE HALL CINEMA: *Pretty Woman.* Children under 14 $2; UCSF students & MU members $2.50; students & seniors $3; general $3.50. Cole Hall. 6:30 & 9 p.m.*

6 Saturday

ANESTHESIA GRAND ROUNDS. HSW 301. 8-10 a.m.

SURGERY GRAND ROUNDS: Followed by M&M conference. Toland Hall. 8:30-9:30 a.m.

GREAT EXPECTATIONS PROGRAMS FOR PARENTS: *The Decision to Be a Full-Time Mother.* This panel discussion is the first of a six-part "Growing Family" series. $5 individual/couple. S 118. 9 a.m.-noon. Call 476-6667.*

UNDER THE HOOD. . . AGAIN

Repeat performance of the car care & safety workshop for women. $20. Ellis Brooks dealership, 1395 Van Ness Ave. 9 a.m.-1:30 p.m. Call 476-5836 to pre-register.*

SELF DEFENSE FOR KIDS & ADOLESCENTS

Three sessions on Oct. 6, 13 & 20 provide personal safety information for home, school & in public. Trisha Brinkman, instructor. Participants should wear comfortable clothes. $30. UCSF Marilyn Reed Lucia Child Care Study Cntr., 610 Parnassus Ave. Call 476-5222 to pre-register.*

- Ages 7-10: 10 a.m.-noon.
- Ages 11-14: 1-3 p.m.

Features

Mikkel Aaland

"Are you a good good witch or a bad witch?" Well, she's not a witch at all. She's the "Fairy Princess," and is one of the attractions at the SFGH party. Under the spreading arms of the Princess (known in real life as Loree Lee) are (left to right) Cedric Bainton, professor & vice chair, anesthesia; four-year-old Natalie Coreas; her five-year-old brother Jose; SFGH nurse Gladys Zarazua; and three-year-old Tracie Mixon.

Party in the Mission October 13

City To Celebrate More Than a Century of Partnership Between SFGH and UCSF

The year was 1864. Roller skating first became popular in America. "In God We Trust" first appeared on US coins. Grant took over as commander of the Union armies.

In San Francisco, we were at the end of the Gold Rush days. Dr. Hugh H. Toland opened his medical school (later to become UC San Francisco) next door to the City and County Hospital at Stockton and Francisco Streets. The following year, Toland was granted permission to use the hospital to teach clinical medicine.

Who would have guessed that this would be the beginning of a long-standing relationship between UCSF and San Francisco General Hospital, one that today is stronger than ever—together fighting life-threatening diseases including AIDS, together becoming a leader in emergency trauma care, together offering services for women and children, for workers with occupational-related diseases, and for those with inherited disorders such as sickle cell anemia. It is a partnership that has helped to make SFGH what *US News & World Report* calls "one of the top 57 medical centers in the country."

Well, now it's time to party.

To celebrate the achievement and more than a century of working together to provide health care for the people of the City, Mayor Art Agnos and Chancellor Krevans invite you and the entire city to SFGH on Saturday, October 13, from 10 a.m. to 4 p.m. Some 10,000 revelers are expected to be part of the festivities. Will you be there?

This truly will be the public "Party with a Heart." Held at 1001 Potrero Avenue (between 21st and 23rd Streets in the Mission District), the party will include all kinds of multi-ethnic singing, dancing, and theatre on two stages, with many other entertainers strolling through the crowds.

The day will feature fun and entertainment for all ages. There will be a health fair staffed by experts intent on keeping you and your family healthy. A huge community resource fair will wrap along the driveways, where you will find information on a great variety of resources—from housing to legal, language to career and much more for virtually every ethnic and special group there is in this city, including Latino, Asian, elderly, gay and many others.

You'll be able to take one of the many tours of SFGH's patient care and research areas. A photomural and artifact exhibit in the cafeteria on the second floor of the main hospital building will display memories of SFGH's colorful past. Food booths galore will enable everyone to sample the delicious ethnic cuisines of SFGH's friends and neighbors.

Have we whetted your appetite for a few particulars? Just turn the page!

Here are a few of the key people who have been working feverishly over the last year to pull together the SFGH celebration. They are (left to right) Charles Becker, printed materials; Carol Fink, October 19 gala; Moses Grossman, chair, SFGH/UCSF Celebration; Ian Nadel, tours; Marianne Balin, resource fair; John Luce, October 12 luncheon; Bertha Soldevilla-Dae, family health & fitness fair; Jan Rogerson, history exhibit; Fran Tate, October 12 staff reception.

Luncheon for Dignitaries, Party for Staff October 12

The day before the celebration, there will be a special briefing at 11 a.m. for all press and media in the Bay Area. At noon, city and university dignitaries will attend a special luncheon hosted by Mayor Art Agnos and Chancellor Krevans.

Later that same day, a big reception for SFGH and UCSF staff who work at the hospital will be held from 2:30 to 4:30 p.m. The staff party will include refreshments, entertainment and tours.

These events will be held in the courtyard between Building 100 and the main hospital building.

October 19 Gala

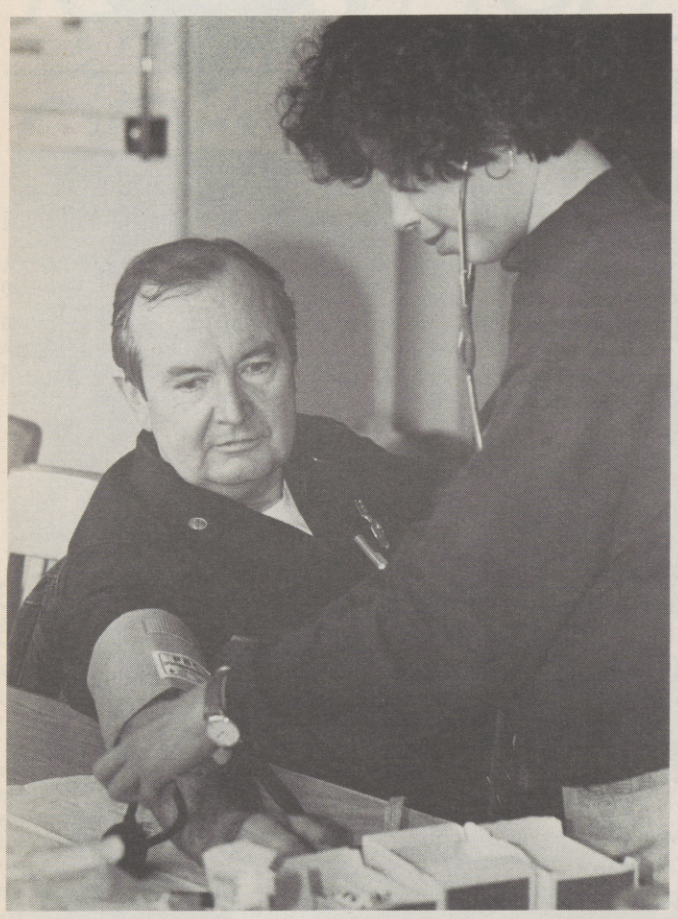
You'll have the chance to dance the night away to the big band sounds of the Dick Bright Band the week following the October 13 celebration. On the evening of Friday, October 19, all UCSF/SFGH staff, faculty and students are invited to a gala at the Presidio Officers' Club. The fun begins at 8 p.m. and lasts until midnight.

One of the highlights of the evening will be the presentation of the first annual Moscone Award honoring individuals who have demonstrated significant commitment to the health of San Francisco.

You'll be treated to a buffet dinner and there will be a no-host bar. Tickets at $20 each are available on the second floor of the main hospital building of SFGH, Room 2A2, or call Gloria Rodriguez at 821-5310.

The entire SFGH celebration is being supported by donations from corporations —including Genentech, Intra-Trade Medical Corp., PG&E, Proctor and Gamble, Merck, Sharp & Dohme, Walgreens—and by private donations.

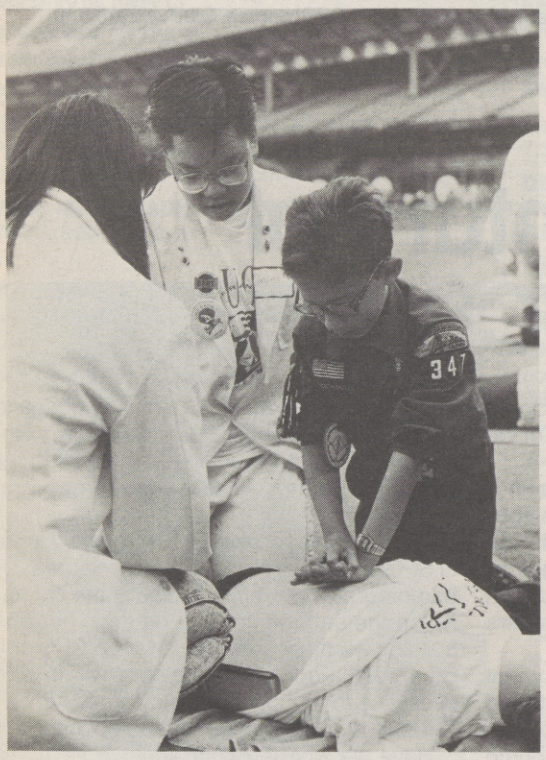
Your SFGH Party Guide . . .



Janet Van Ham

Cholesterol Testing

Have you had your cholesterol tested lately? Well, now is the time to do it. It's free, will take just a few minutes, and you'll have the results within seven minutes. Sponsored by the Gladstone Foundation Laboratories for Cardiovascular Disease. Outside near Building 20.



David Powers

CPR Demonstrations

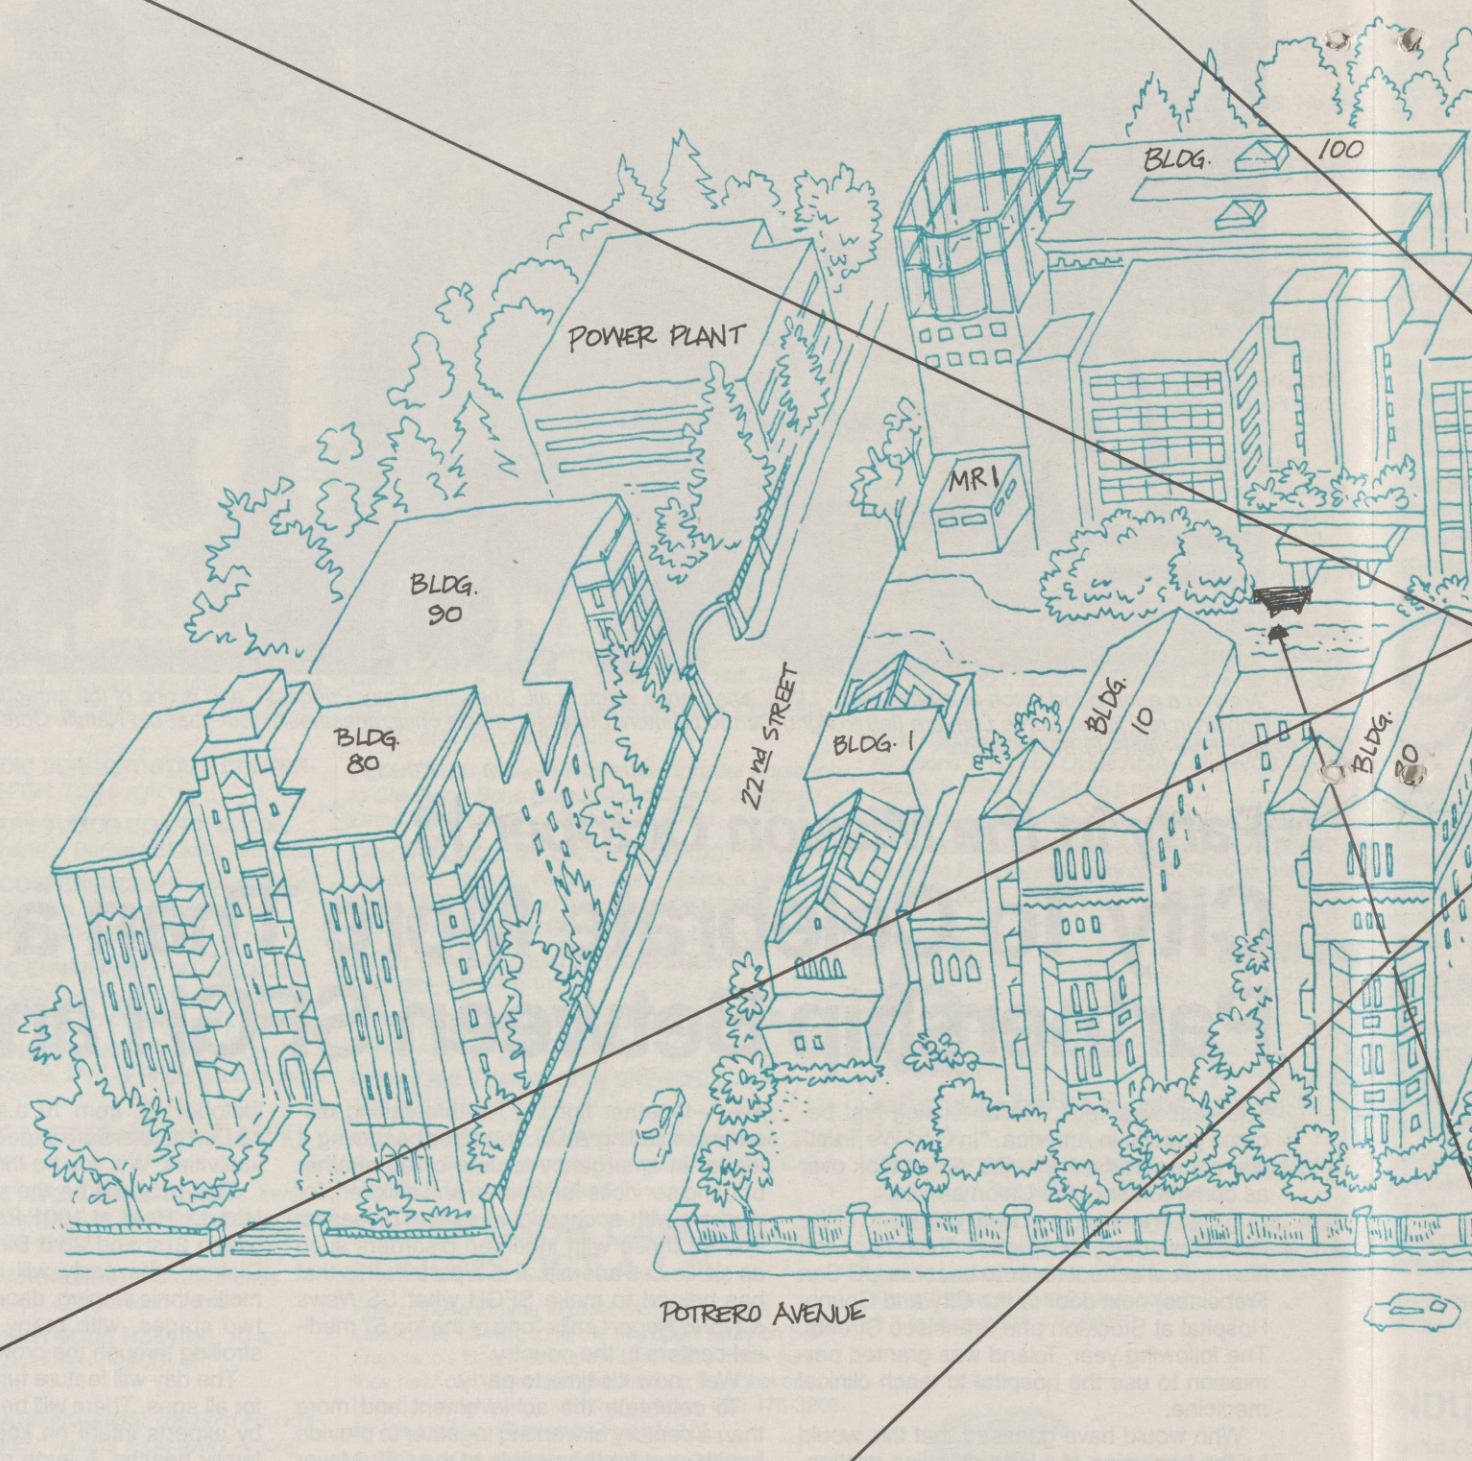
Learn how to give Cardiopulmonary Resuscitation (CPR) in the lobby of the main hospital building.

Tours & Five Open Houses

Hour-long tours of the hospital and research areas will depart every half hour from the main hospital entrance. You will be able to see the emergency room, the clinical laboratories where a host of diagnostic tests are performed, the operating room, the Gladstone Laboratories, the Gallo Center, the Rosalind Russell Arthritis Laboratory, the Lung Biology Center and many other research laboratories. Researchers will demonstrate the sophisticated equipment they use to perform experiments.

And there will be open houses at the Power Plant, San Bruno Avenue and 22nd Street; the Nurses Learning Center, Room 4J of the main hospital; Radiology, Room 1X69 of the main hospital building; the Rape Treatment Center, Building 80, Ward 87; the Library, Building 30.

Emergency vehicles will be on display in the circular driveway.



How to Get There

People are encouraged to take public transportation to the event. SFGH is served by MUNI lines #33 Stanyan, #9 San Bruno and the #48 24th Street and Mission.

For more information on all the SFGH celebration activities, call 476-3954.

Family Health & Fitness Fair

Make your way beyond the scores of entertainers, and just follow your nose to the big tent on the lawn, and under it you'll find all the health-related information you'll need to keep yourself and your children healthy. Doctors, dentists, nurses, midwives, pharmacists, dietitians and others will explain how to quit smoking, care for your teeth, have healthy babies, keep your children safe in a car accident and avoid developing such health problems as diabetes, hypertension and high cholesterol. You'll learn the best way to stay healthy.

In addition to many other activities, children will be able to play with casts and crutches. Tons of free items will be given out, including toothbrushes and toothpaste, infant formula and condoms.

SFGH · UCSF
100 YEARS
OF PARTNERSHIP

Resource Fair

Winding along SFGH's circular driveway will be a Resource Fair, where 150 different groups and agencies from SFGH and UCSF, as well as community medical, housing, legal, language, career, nutrition and health-related resource groups will provide information on their services. Successful programs dealing with children, the elderly, refugees, the handicapped, women, gays and many individual ethnic communities will be featured.

SFGH Archives

Historical Exhibit

A photomural and artifact exhibit on the second floor of the main hospital building in the cafeteria will display mementos of SFGH's past.

de Young Art Truck

Why, it's nearly Halloween. What a perfect time for your kids to make a mask. On the sidewalk, between Buildings 20 & 30.

Entertainment

Do you like Latino music? What about Chinese or gospel singing? Perhaps you'd prefer to get into some rap?

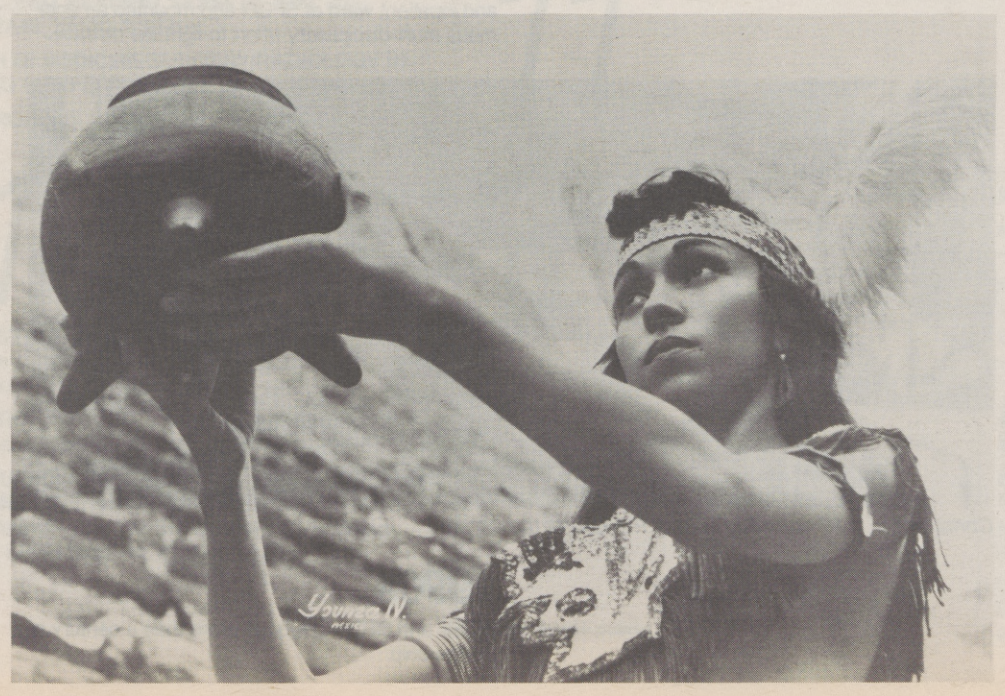
It will all be there for you at SFGH on Saturday, October 13. And much, much more. Local artists, singers, dancers, musicians, mimes and jugglers will grace two stages on the SFGH hospital grounds. It is only fitting that SFGH, "the hospital for all people," will feature entertainment from several diverse areas of the City, people representing neighborhoods which have been served by the hospital for the last century.

To start off the fun on the main stage (on the lawn near Building 30) will be Loree Lee, a modern-day fairy, who will issue in the entertainment. Hot on her heels will be that fun-loving, smart-alecky cartoon character Bart Simpson. There are 400 free pictures of the entire Simpson family which will be given out beginning at 10 a.m.

Other attractions will include a puppet show, Samoan women dancers, Trinidad and Tobago's "Our Boys Steel Orchestra," Mexican Ballet Folklorico "Los Matlachines," rap music and gospel music, plus performances by The Children's Center for Movement Therapy and the McAteer School of the Arts.

KRON-TV's Dominique DiPrima, host of "Home Turf," a program for and about San Francisco teens, will be emcee on the main stage from noon to 4 p.m.

On the music stage (located near the main hospital entrance) you'll be treated to Chinese singer Wilma Pang, jazz trios, the Lincoln High Madrigal Singers, the Filipino sing-a-long group "The Skylarks" and much more.



Los Matlachines

Looking Back at a Colorful Past . . .

SFGH Archives

SFGH medical crew during the influenza epidemic of the 1910s

1850s

The City and County of San Francisco opened its first permanent hospital in 1857 on the corner of Stockton and Francisco Streets. Seven years later Dr. Hugh Toland opened his medical college next door.

1860s

Pasteur demonstrated presence of bacteria in the air.

Tuberculosis was the leading cause of death in San Francisco between 1860 and 1920, and after 1901 a special city ordinance required that all tuberculosis patients be registered.

City health conditions were so bad in 1869 that the *Daily Morning Chronicle* printed a scathing article; funds were appropriated by the city for additional nursing staff, and San Francisco decided to build a new City and County Hospital.

1870s

Just three years later, in 1872, a new pavilion-plan hospital opened on Potrero Avenue, where the present SFGH now stands, with separate wards connected by covered walkways. These "temporary" wooden buildings would later be condemned as unsanitary and intentionally burned during San Francisco's second plague epidemic in 1908.

Toland Medical College became a part of UC in 1873. An official agreement was reached that same year for the City and County Hospital to serve as the clinical facility for UC and Stanford medical schools.

1880s

Student internships were introduced at SFGH in 1884. Six UCSF medical students began the program serving for a year in return for room and board . . . and no pay. For many years, UCSF and Stanford shared responsibility, and in 1959, UCSF took over the entire medical responsibility for patient care, teaching and research at SFGH.

And what would the medical profession do today without this important event in 1885: The game of golf was introduced to America.

Two major events happened in the surgery world toward the end of the 1880s: Steam was first introduced by Ernst von Bergmann to sterilize surgical instruments in 1886, while four years later rubber gloves would be used for the first time.

1890s

The first women nurses were added to the SFGH staff in 1891 in order to bring "surgical cleanliness to the primitive operating theaters." That same year a nurses training school was established.

1900s

The bubonic plague struck San Francisco in 1900. The Mayor denied that the plague existed.

SFGH escaped serious damage during the 1906 earthquake and fire, but the days of the dilapidated structure were numbered. UC set up a makeshift hospital on the Parnassus campus and in Golden Gate Park to care for those injured in the quake. More bad times were on the way: The typhoid epidemic struck that same year. Elsewhere, "Typhoid Mary," carrier of the disease, was found and incarcerated.

In 1908, while people across the U.S. were celebrating the second annual Mothers Day, San Francisco again was suffering: The second bubonic plague epidemic had just struck. The county hospital was pronounced unfit for patient care when plague-infested rats and fleas were found there. The wooden hospital buildings were burned to the ground by city order and all patients were moved to the old Jockey Club Racetrack in the Ingleside district, where the box stalls and grandstands were converted into a temporary hospital.

1910s

The plague was officially eradicated in 1910. The following year, temporary wooden buildings were constructed on Potrero for TB patients.

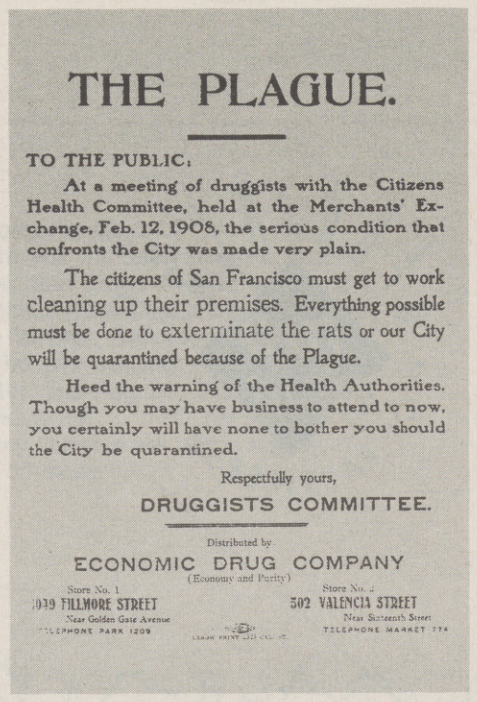
1915 was a big year. A new SFGH hospital, a landscaped, red brick, Italian Renaissance-style complex, was dedicated during San Francisco's celebration of the Panama Canal, which included the Panama-Pacific Exposition. All emergency hospitals replaced their horse-drawn vans with modern motorized ambulances. Meanwhile, also in San Francisco, Thomas A. Watson answered the first transcontinental call from New York from Alexander Graham Bell.

Schools throughout San Francisco had to become makeshift hospitals during the influenza epidemic of 1918. The city's hospitals ran out of beds.

1920s

In 1923, SFGH provided 74 per cent of all hospital care for the medically indigent, although it had only 23 percent of the hospital beds in the city.

The following year, in 1924, the first psychiatric ward opened at SFGH to treat acutely ill patients and reduce state hospital admissions.



THE PLAGUE.

TO THE PUBLIC:

At a meeting of druggists with the Citizens Health Committee, held at the Merchants' Exchange, Feb. 12, 1908, the serious condition that confronts the City was made very plain.

The citizens of San Francisco must get to work cleaning up their premises. Everything possible must be done to exterminate the rats or our City will be quarantined because of the Plague.

Heed the warning of the Health Authorities. Though you may have business to attend to now, you certainly will have none to bother you should the City be quarantined.

Respectfully yours,

DRUGGISTS COMMITTEE.

SFGH Archives

Emergency vehicles line up for inspection in front of City Hall in 1924.

1930s

In 1933, at least one-third of our medical and nursing students contracted tuberculosis during their rotations on TB wards.

1950s

In the late 1950s, SFGH began prenatal classes for minority parents in churches and community centers in the hope of reaching those not coming to the hospital for care.

In 1957, SFGH Emergency assumed responsibility for rape victims; previously, rape had been treated as a criminal assault by the police, leaving little room for the medical and psychological needs of the victim.

1960s

In 1960, SFGH had 1,740 live births, more than any other hospital in the city.

1970s

In 1974, the UCSF Chlamydia Lab moved to SFGH and became the world leader in chlamydia research.

SFGH made a successful transition from a hospital for the medically indigent to a community hospital with the opening of the new Medical Center in 1976.

SFGH started a Nurse Midwife program in the 1970s and by 1977, one-third of all births at SFGH were attended by nurse midwives.

The Gladstone Foundation Laboratories for Cardiovascular Disease opened at SFGH in 1979. Over the next decade the Rosalind Russell Lab, plus the Gallo, Koret and Lung Biology centers opened, making SFGH a major UCSF research center.

1980s

In 1980, the School of Dentistry opened its first Community Dental Clinic at SFGH.

First AIDS cases were reported in the US in 1981. Two years later, UCSF clinicians and researchers developed the country's first outpatient AIDS clinic and inpatient ward at SFGH and mounted an enormous multi-disciplinary effort to fight the disease.

11 Thursday

BLACK TASK FORCE CONFERENCE OCT. 11-12

No Crystal Stair: Models for Successful Development of African Americans. Two-day, multi-speaker event sponsored by the Black Task Force of the UC Psychiatric Service at SFGH. UCSF-Laurel Heights. Call 476-5808 for registration information. (See story page 2.)*

MEDICINE GRAND ROUNDS: *CPC.* Anthony Consentino, Med. Toland Hall. 8-9 a.m.

*Open to the public.

SFGH NEUROLOGY/NEUROSURGERY CONFERENCE. 4H2. 8-9 a.m.

PEDIATRICS GRAND ROUNDS: *Autistic Disorders: Developmentally-Based Diagnosis, Early Identification, Treatment, Planning & Prognosis.* Bryna S. Siegel, Child & Adol. Psychr. S 664. 8:30-9:30 a.m.

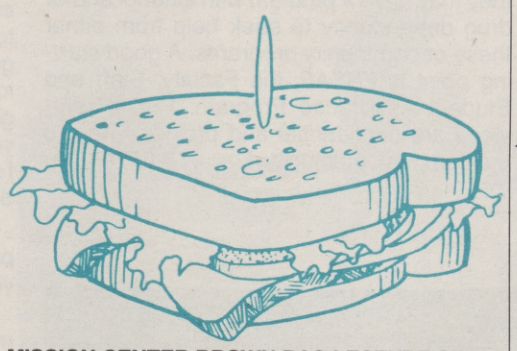
OPHTHALMOLOGY GRAND ROUNDS: *Sickle Cell Disease of the Eye.* Don Gagliano, Letterman Med. Cntr., Presidio. Preceded by case presentations: *Uveitis.* S 214. 8:30-10 a.m.

SFGH TRAUMA CENTER CONFERENCE. Rm. 4H2, SFGH. 9-10 a.m.

NEUROLOGY/NEURORADIOLOGY CONFERENCE. HSE 317. 10-11 a.m.

PEDIATRIC TUMOR CONFERENCE. L 34. 11 a.m.-12:15 p.m.

ORAL BIOLOGY 220 SEMINAR: *Implantation: The First Invasion in Development.* Susan J. Fisher, Stomat. & Anat. S 664. Noon.



MISSION CENTER BROWN BAG LECTURE SERIES: *Food for Thought: How Diet Affects Our Mental Health.* Kim Peter Norman, Psychr. UCSF-Mission Center (MCB), Rm. 125. Noon-1 p.m. Call 476-4394.*

ADDING ZIP TO YOUR RESUME OCT. 11 & 18

Make It Snappy! Revitalizing Your Resume. Susan Eveleth, career counselor & specialist at UCSF, helps you bring your resume to life, letting your work history shine through in this two-session workshop. Bring old resume. $5. HSE 317. Noon-1 p.m. Call 476-0400 for recorded program information.*

SUPERVISOR CANDIDATE FORUM: Millberry Union Conf. Cntr. Noon-1 p.m. (See Oct. 4 listing & story on page 1.)

MEDICAL ANTHROPOLOGY RESEARCH SEMINAR: *Health & Human Rights in South Africa, Zimbabwe & Mozambique.* Chris Keiffer, Med. Anth. Laguna Honda School, Rm. 218. Noon-1 p.m.

LIEBERMAN LECTURE

Treatment Center or Pesthouse? The Isolation Hospital at the Turn of the 20th Century. John Eyler, Hist. Med., U Minnesota. Sponsored by Dept. Hist. Hlth. Sci. S 1364. Noon-1 p.m.

MEDICINE/SURGERY ADULT CARDIAC CATHETERIZATION CONFERENCE. L 1361. 4-6 p.m.

ORTHOPEDIC SURGERY STAFF CONFERENCE. A 630. 4-5 p.m.

NEURORADIOLOGY GRAND ROUNDS. HSW 303. 4-5 p.m.

PRIMARY CARE GRAND ROUNDS: *Syncope.* Steven Fugaro, Med. A 455. 4:30 p.m.

NEUROSURGERY GRAND ROUNDS. HSW 302. 5-6:30 p.m.

UROPHYSIOLOGY CONFERENCE: *Isolated Jejunal Pouch Perfusion for Treatment of End-Stage Renal Disease.* Richard D. Williams, Uro., U Iowa. M 464. 5-6 p.m.

RADIOLOGY GRAND ROUNDS: *CT of Acute Pancreatitis: Diagnosis & Staging.* Emil J. Balthazar, Radio., NYU & Bellevue Hosp. HSW 301. 5:15-6:15 p.m.

ALCOHOLICS ANONYMOUS MEETING: Closed meeting—alcoholics only. LPPI A 222. 6 p.m.*

12 Friday

CRI HEMATOLOGY/ONCOLOGY GRAND ROUNDS. M 1296. 8 a.m.

MOUNT ZION MEDICAL GRAND ROUNDS. Herbst Hall. 8:30 a.m.

PHARMACEUTICAL CHEMISTRY SEMINAR: *Rational Design of Sequence Specific Inhibitors of Gene Expression.* Claude Helene, Lab. de Biophysique, Museum Natl. d' Hist. Naturelle, Paris. S 1364. 11 a.m.

ALCOHOLICS ANONYMOUS MEETING: All are invited. HSE 336. Noon-1 p.m.*

PATHS OF HEALING & WHOLENESS SEMINAR: *The Interface of Stress & Emotional Health.* Sylvia Miles. N 721. Noon. Call Marie Lehrer at 476-3939 for information.*

URO-ONCOLOGY CONFERENCE: *The Use of PSA in Prostate Cancer Management.* Richard D. Williams, Uro., U Iowa. HSW 300. 4:30-5:30 p.m.

DEVELOPMENT & TRAINING

For further information call 476-4032.

Typing Instruction via Computer. Mon., Wed., Fri., Oct. 1, 3, 5. 9 a.m.-noon. $50.

English as a Second Language. Tues. & Thurs., Oct. 2-Dec. 18. Noon-1 p.m. $50.

Labor Relations Supervisory Series. Tues., Oct. 2, 9, 16. 8:30-noon. $10.

Supervisor's Guide to Performance Evaluation. Wed., Oct. 3. 8:30 a.m.-4:30 p.m. $20.

Supervisor's Training Program. Thurs., Oct. 4, 11, 18, 25, Nov. 1, 8. 8:30 a.m.-noon. $40.

Career Directions at UCSF. Wed., Oct. 10, 17, 24. 8:30 a.m.-noon. $20.

Introduction to Database Management. Mon., Oct. 15. 8:30 a.m.-4:30 p.m. $70.

Travel Expense Processing. Wed., Oct. 17. 1:20-4:30 p.m. $10.

CONTINUING EDUCATION

MEDICINE

For program information call 476-4251, registration 476-5808 unless otherwise noted.

No Crystal Stair: Models for Successful Development of African Americans. UCSF-Laurel Heights. Oct. 11-12. (See story on page 2.)

Eighth Postgraduate Course in Medical Mycology. Med. Sci. Lobby (registration). Oct. 12-14.

DENTISTRY

For further information call 476-1101.

Update on Clinical Endodontics. C 701. Oct. 5.

The Renaissance in Local Anesthesia. C 701. Oct. 12.

Advanced Periodontics for the General Practitioner. C 701. Oct. 20.

The Carbon Dioxide Laser in Oral & Maxillofacial Surgery. C 701. Oct. 26.

PRONUNCIATION CLASS

Improve Your English Pronunciation. A course for non-native speakers of English, sponsored by the UCSF Audiology & Speech Clinic. Small group discussions & individual teaching. Beginning & advanced, group rates available. Call Alicia Henderson, 476-5101.

AIDS/ARC/HIV+ SUPPORT

Anonymous & confidential caring, support & training for people with AIDS or ARC, those who have tested HIV positive & others affected by the epidemic. Sponsored by UCSF AIDS Health Project. Call 476-6430.*

Individual Risk Assessment & Referrals. By appointment.

Facilitated 8-week Groups. For anyone affected, at risk or infected.

Drop-in Group for the Recently Tested.

Positives Being Positive. Support groups in the community meet regularly. Call 476-3902.

Living with HIV. Public forums every other month.

WOMEN'S RESOURCES

Sponsored by UCSF Women's Resource Center unless otherwise noted. Call 476-0400.

GROUPS

Ongoing drop-in groups for women.

Asian/Pacific American Women's Group. C 130. Every Fri.

Women Living with Life-Altering Illness. C 517. Every other Monday.

Lesbian Lunch Group. C 213. First & third Mon. of each month.

Latin Women Coalition. S 30. Oct. 24 & Nov. 14.

Circle of Sisters. Black women's group. L 535. Every Fri.

Support Group for Divorced & Separated Women. C 130. Every Tues.

RAPE PREVENTION

Classes, workshops & support groups sponsored by UCSF Rape Prevention Program. Call 476-0400 for information.

Personal Safety, Rape & Assault Prevention Presentations. By appointment to campus departments & employees in the workplace.

Support Group for Sexual Assault Survivors. Twelve consecutive weekly sessions, 5:30-7 p.m. on a day to be arranged. $5-$25 sliding scale.

CPR TRAINING

Basic CPR. A 3-4 hour course in basic cardio-pulmonary resuscitation sponsored by the UCSF CPR Center. For information & registration call 476-1817.*

CPR Road Show. Traveling CPR instruction by volunteer instructors sponsored by the UCSF Center for Pre-Hospital Research & Training. For more information call Laura, 476-8502.*

Benefits/Personnel

Get Your Child into the Right School

"Getting Your Child into School" is the first of a series of free programs on child and elder care sponsored by the UCSF Child and Elder Care Referral Center and the Women's Resource Center.

Come pick up tips from Sylvia Buford, director of the Phoebe A. Hearst Preschool in San Francisco, on Thursday, October 18, from noon to 1 p.m. in the Langley Porter Auditorium. Buford and other representatives from public and private preschools and elementary schools will discuss ways to identify the right school for your child—and then how to get in.

The series will continue with a second program on Thursday, October 25, "Parenting on Both Ends of the Spectrum"—geared for those simultaneously faced with child care and care for elderly parents; and conclude with "The Elder Care Dilemma" on Thursday, November 1. The location and times are the same for all three programs.

For further information call Byron Sigal, coordinator of the Child and Elder Care Referral Service, 476-2692.

Drug-Free Campus

The Chancellor's Office recently distributed a memo outlining the University's program to prevent illegal drug and alcohol use by employees and students. The Federal Drug-Free School and Communities Act of 1989, which is a companion to the Drug-Free Workplace Act of 1988, requires that the University have such a program, and that employees and students be notified of the program on an annual basis. If you did not see the memo and wish to, be sure to check with your supervisor.

An important part of the program is making help available to those with substance abuse problems. As Chancellor Krevans notes in the memo, a number of campus programs exist, and he encourages anyone who feels they may have a problem with alcohol and/or drug dependency to seek help from either these or community programs. A good starting point is FSSAP, the Faculty, Staff and Student Assistance Program. FSSAP services are confidential and provided free to the campus community. Call 476-8279.

How to Get a Job

Qualified UCSF employees are urged to apply for open positions. The "Employee Opportunities" flyer lists current openings. The flyer is posted weekly in four locations: The main personnel office, the satellite office on the first floor at UCSF-Mission Center, in the hallway west of the cafeteria in Moffitt Hospital and in the Women's Resource Center.

The "Open Until Filled" list can be viewed at the main personnel office and the MCB satellite. Lists are updated Thursdays.

Personnel is located at 1350-7th Avenue. Business hours are 8 a.m. to 5 p.m. Monday through Friday, and until 6:30 p.m. on Wednesday. For job-related information, call x61645.

Service Awards

Mary Ellen Fox, 25 years, pathology, School of Medicine.

Julius P. Gargaritano, 20 years, physiological research facility.

Iris Gartner, 30 years, clinical labs, SFGH.

Eleanor O. Gately, 10 years, radiology.

Hazel F. Georgetti, 10 years, mental health, community & administrative nursing.

Meryl Glass, 10 years, Marilyn Reed Lucia Child Care Study Center.

Luisa Gomez, 15 years, materiel services.

Jeanne M. Gonzalez, 15 years, dentistry.

Donald N. Graves, 15 years, LPPI.

Grita Gustafson, 30 years, clinical labs.

Gloria M. Hall, 10 years, environmental services.

Loretta Harbaugh, 10 years, medical records information/legal.

Antoinette Herrero, 15 years, cardiology, SFGH.

Dominga S. Hill, 20 years, parking operations.

Shirley J. Hodges, 10 years, dentistry.

Susan L. Hui, 10 years, environmental services.

Betty F. Jerez, 10 years, pathology.

Ruby Johnson, 10 years, physical plant.

Ardelia Jones, 30 years, LPPI.

Zoila A. Kelly, 15 years, Capital Resources Management.

John A. Kennedy, 10 years, restorative dentistry.

Hermini Keshishyan, 25 years, clinical labs.

Timothy M. Krug, 10 years, Cardiovascular Research Institute.

Julie Lau, 15 years, Capital Resources Management.

Rose B. Lau, 10 years, Capital Resources Management.

Elsa R. Lazo, 10 years, environmental services.

Arthur T. Lee, 15 years, pharmaceutical services.

Vickie L. Lewis, 15 years, Cardiovascular Research Institute.

Warrene Lofton, 20 years, accounting.

Elba Lopez, 10 years, environmental services.

Carlton J. Louie, 10 years, pathology.

Agnes F. Lui, 15 years, patient escort services.

Tristan Malig, 10 years, clinical labs, SFGH.

Eleanor H. Marquez, 20 years, LPPI.

Maria Martinez, 15 years, Ambulatory Care Center.

Barbara McCastle, 20 years, accounting office.

James B. McKinley, 30 years, pharmaceutical services.

Gail W. McSweeney, 15 years, pharmaceutical services.

Melonie C. Miles, 10 years, medicine.

Promotions

Promotions are made available to this publication after they are processed by the Personnel Department.

Denise Goodwin, administrative assistant I, oral & maxillofacial surgery.

David Grounds, staff research associate I, medicine.

Ramon Gungon, staff research associate I, laboratory medicine.

Lavada Hall, administrative assistant I, environmental health & safety.

Frank Harrell, hospital clinical laboratory assistant II, laboratory medicine-clinical labs/SFGH.

Amoy Injo, administrative assistant III, dentistry/management information systems.

Rosemary Jezukewicz, assistant dean for advancement, School of Nursing Dean's Office.

Merrie Kaas, clinical nurse IV-supervisor, LPPI/psychiatry.

Julie Keating, administrative analyst, Ambulatory Care Center.

Susan Kuntz, hospital laboratory technician I, CVRI.

Kathryn Lee, senior clerk, gift shop.

Katherine Lenihan, principal clerk, pathology.

Cathy Livy, principal radiologic technologist-supervisor, radiology.

Diana Louie-Ho, chief radiation therapy technologist, radiation oncology.

Michael Lum, supervising clinical laboratory technologist, clinical labs/chemistry.

Marsha Manfre, principal word processing specialist, Vice Chancellor, University Advancement & Planning.

Valerie Margol, administrative assistant III, Chancellor's Office/Alumni-Faculty Association.

Open Enrollment Open House October 31

Here's a great way to prepare for the annual open enrollment period coming up in November: The Office of Financial Planning and Benefits is sponsoring an Open Enrollment Open House on Wednesday, October 31, from 8 a.m. to 4 p.m. in the Millberry Union Conference Center.

The event will feature representatives from all of the UC-sponsored medical, dental and legal plans. This is your opportunity to find all the reps in one place at one time, ask your questions, make comparisons, and figure out which plans are the best for you. Mark your calendar and save the date.

Do You (or Does Your Department) Recycle? Please Let MAG Know

The Medical Center's Managers Advisory Group (MAG)* is trying to get a handle on the various recycling efforts taking place on campus. If you are involved in departmental or individual recycling activities, please answer the following questions and send them to Michelle Compton at Box 0216. Don't forget to include your name, department and location. (If you have a departmental program going, you might want to coordinate your response with colleagues; i.e., no need for more than one response per department.)

1. Does your department have a recycling program in place, or are you recycling on your own?

2. Who supplies the receptacle? Department? Vendor? Other?

3. What is the receptacle made of?

4. Who is responsible for collecting your recycling? Where does it go? Do you get reimbursed?

5. Do you have a receptacle for paper? Bottles? Cans? Cardboard? Newspaper? Other?

6. Do you recycle both white and colored paper? Do you separate it?

*MAG is an organization of Medical Center department managers who are involved in planning, coordinating, implementing and evaluating issues of common concern.

The Right to Know About Hazardous Substances

The Hazard Communication Standard is a set of regulations that makes it the employee's right to be informed of the hazards of chemicals in the work area. The Office of Environmental Health & Safety recently distributed a flyer on the Hazard Communication Standard and what it entails. If you didn't receive a copy and want one, or if you have questions, call EH&S at 476-1300.

How Are the Funds Performing?

For those invested in the 403(b) Plan and the After-tax Plan, here are the latest unit values and monthly factors (as of July 31). If you have questions, please call x69256.

	Monthly Factor	Current Rate
Savings	.0070	8.29%
Money Market	.0068	8.05%
GIC	.0074	8.73%

	Unit Value	1-Month Change	12-Month Change
Bond	$38.17	-3.8%	1.0%
Equity	$61.36	-7.8%	-3.4%

Breastpump Available

In response to a recommendation by the Chancellor's Advisory Committee on the Status of Women, an electric breastpump has been purchased and placed in the anteroom of the women's restroom on the eighth floor of HSW. The pump is available to all faculty, staff and student nursing mothers on campus.

Please note, users must provide their own kits. Local vendors carrying the kits include Natural Resources at 4081 24th Street and Family Birth Place at 2252 Fillmore #301. For further information, contact Kathy Giacomini at 476-1936, the Women's Resource Center at 476-5836 or Nicole Child at 476-8900.

UC Savings Program: New Multi-Asset Fund

If you are enrolled in the 403(b) or After-tax Savings Plan—or are thinking about it—take note: A new multi-asset fund is now available. The fund offers automatic diversification by investing contributions in the following percentages: 40 percent savings, 30 percent equity, 20 percent bond and 10 percent money market.

To transfer contributions to this fund (or to enroll in a UC savings program) see your department benefits rep.

Better Yourself

"Career Directions at UCSF," "Supervisor's Training Program" and "English as a Second Language" are three of 13 courses offered in October by Development and Training. All classes are designed to increase your competence and/or further your career development. If you're interested in the complete list, call 476-4032, quick. Enrollment is first come, first served, and some classes begin early in October.

Fun Zone

"Women Welcome Women" October 18

This year's "Women Welcome Women" on Thursday, October 18, will be celebrated with a true happy hour—comediennes Karen Ripley, Margaret Cho and Diane Amos will entertain. The event will take place in the MU Conference Center beginning with refreshments from 5:30 to 6:30 p.m., followed by entertainment from 6:30 to 8 p.m. There is no admission charge.

"Women Welcome Women" is an annual event providing students, staff and faculty the opportunity to welcome new women to campus and to renew old acquaintances. The event is sponsored by the Women's Resource Center, GSA, ASUC, Women's Faculty Association, Office of Public Service Programs and the Rape Prevention Education Program.

More fun:

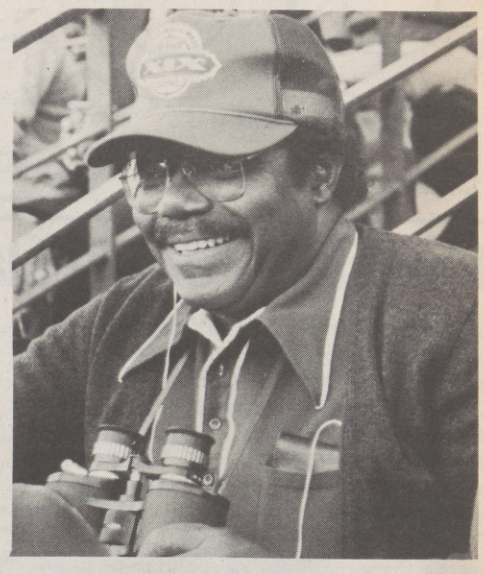
- **The "Edlos" a capella group** will perform at Mount Zion, SFGH and MCB the first week of October. See article on page two.
- **Softball team.** Men's winter league softball starts October 14 and plays on Sundays. Call Ricky Johnson, 931-2610, or EMPACT!, 476-2675.
- **"Run for Health."** This UCSF-sponsored run (first sponsored by the Department of Nursing some years ago) has undergone a number of name and date changes. In case you are wondering when to start training, the new plan is to make it a part of National Employee Fitness Day on Wednesday, May 15. This gives you much more time to get in shape. If you'd like to get on the mailing list, call Alan Tower, 476-0356.
- **Second Annual Faculty/Staff Art Show.** November 12 and 13 in the MU Conference Center. Entry information: Arts & Performances, 476-6761.
- **Join a club or league.** Golf, running, rollerskating, cycling, rowing, raquetball, bowling and folk dance. Everyone welcome, including beginners. Call EMPACT!, 476-2675, for the right number to call.

Medsounds Continued

Random Shots

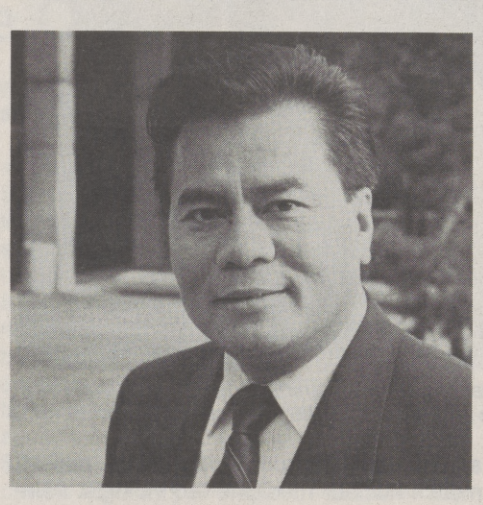
Jesse Stephens

Position: Director, Environmental Services.
Years at UCSF: Almost 10.
Background: Grew up in El Paso, Texas. Joined the Army at age 17. Three years later joined the Air Force; stayed with it until retirement 20 years later. Has lived in Japan, France, Turkey, Reno, Novato, Dayton, and Dover. Served in a variety of capacities, including a post with the command surgeon, in which he traveled through European and Middle Eastern countries inspecting medical installations.
Must be nice to retire at 40: Wasn't exactly the case. At the time, he and wife Myrtle had a houseful of teenagers. They moved to San Francisco, and Jesse took a position with Mount Zion as assistant manager of the housekeeping department. After two years he transferred to Letterman as chief of housekeeping; stayed there six years; transferred to Shaklee as sanitation manager; then came to work at UCSF as assistant manager of Environmental Services early in 1981. He became director in 1987.
Management style: Would describe himself as people-oriented. "I know some managers are goal-oriented, but I believe if you take care of your people, your goals will become accomplished."
Personal style: Definitely a family man. Has five children, four sons and a daughter; all live close by except for one son in Wichita. Two sons work for Wells Fargo, one as a senior auditor and the other in computer operations; another son is a financial management advisor with Great Western. His son in Wichita is a manager with Sears, and his daughter works as a dispatcher with the SFPD. (Daughter Dawn may be the apple of his eye, but he won't have his sons know that.)
Biggest interest outside work: Sports! He and son Stuart are fellow Giants and 49er fans. They get season tickets every year. You can spot this pair at practically every home game. (Where's Myrtle? "You'll never catch her at Candlestick!")
Recent milestone: He and Myrtle celebrated their 40th wedding anniversary.
Recent honor: During National Housekeepers Week earlier this month, he was honored by the San Francisco Executive Housekeepers Association for, as Jesse puts it, "being the senior statesman" for the organization. He does, in fact, hold the record for the longest active membership (since 1972) in the local organization.



"Eddie" Obiniana

Position: Evening shift custodial supervisor, Environmental Services.
Years at UCSF: Six.
Background: Native of the Philippines. Graduated from law school in Manila; passed the bar in 1976. Served as city sheriff of Caloocan City, metro Manila. Came to the US in 1980.
What you remember about your job interview at UCSF: Saying all the things I thought they wanted to hear.
Word that describes me best: Frank.
Worst job I ever had: Ramada Inn shuttle driver after I came to the US.
Last goal accomplished: Becoming a supervisor and having a house of my own.
Next goal: Becoming a manager and maybe having another house.
If there's one thing I've learned in my job here, it's: Diplomacy.
Activity outside work: Legal consultant, personal injury investigator for law firm in Emeryville.
Best advice I ever got: Never fight back with your boss while you are still working for him.
I'm a sucker for: Chinese food.
Most people don't know that I: Can cook all Filipino food including snacks.
Crazy thing I did: Last time I was at the Price Club I mistakenly entered the ladies room. (No one in there.)



Book I'd recommend: Dictionary to increase knowledge of English.
Favorite TV program: Perry Mason.
Favorite cities outside California: Reno, Las Vegas.
I know I'm in for a laugh: When I haven't heard the joke before.
When I'm upset I: Just leave.
If I could change one thing about myself, it would be: My age (I'm 50).
A really great evening for me is: Every Saturday all my kids and grandkids are with me.
Favorite way to spend a Sunday: Gone fishin'.

Happy Housekeepers Week & Pass the Meatballs

If these people look like they're having too much fun, it's okay. They're at a party for Environmental Services staff in celebration of National Housekeepers Week earlier this month. Dorothy La Motte (left) and Douglas Johnson (right) are both members of the Environmental Services staff. Larry Lamotte (center), who stopped in for a meatball ball or two, is a member of the nursing staff of 8 NS (and Dorothy's husband).

Melanoma Center *(continued from page one)*

has amassed one of the largest clinical data bases in the world on the natural history of the disease.

Information from the more than 3,000 patients who have visited the UCSF clinic has helped identify persons who are at high risk for the disease—such as those who are sun-sensitive or who have a large number of moles—and who may need to undergo medical screening on a regular basis. The data on clinical experiences of previous melanoma patients also is helpful to estimate prognosis and recommend therapy.

The incidence of melanoma has risen dramatically in the past two decades, and has been described by some experts as epidemic, particularly in sunbelt states. Some reports show that the incidence of melanoma in this country has doubled since 1980, and rates continue to soar worldwide. Last year, more than 27,000 people were diagnosed with melanoma, and 6,000 died of the cancer. In the Bay Area, Sagebiel estimates there are 20 cases per 100,000 Caucasian adults.

Increasing awareness of melanoma has meant that physicians are seeing more patients in the earlier stages of the disease, when it is generally curable. However, many people who have had tumors removed still require close follow-up, and they live with the constant concern of the cancer returning.

A key component of the new UCSF center at Mount Zion will be the psychological support and counseling that will be offered to each patient. Patients—who are undergoing therapy or who have been treated but live with the threat of recurrence of a cancer that could be deadly—receive counseling and may join support groups.

Staff at the center also will work closely with patients and the community to educate them about melanoma—how to avoid risks and how to recognize warning signs of the cancer. For more information, call the Melanoma Center at 885-7546.

"Entertainment '91" Books Now on Sale

Again this year, the Auxiliary is selling the savings book called "Entertainment '91." The flyer describing the book calls it a "discount leisure directory" offering two-for-one and 50%-off deals at a lengthy list of restaurants, theaters, concerts, cultural attractions, comedy clubs, recreation & sports events, exercise classes, hotels, etc.

The cost is $35 for each book, which entitles you to a year of discounts beginning November 1. Several regional editions are available. In the San Francisco-North Bay edition, for instance, a few of the restaurants listed include Cafe Majestic, Gaylord, Scott's Carriage House, Four Star, Ivy's, North India, the Atrium, and Russian Renaissance—plus dozens of restaurants from Marin, Napa and Sonoma counties.

Please note, with each book purchased, a generous $7 cut goes to the Auxiliary. Last year the Auxiliary was able to raise more than $1,500 through the sale of these books. You can order them through the mail by calling 476-4906 for an order form, or stop by the Auxiliary office at M 182, right across from the cashiers.

ICN Moves *(continued)*

to celebrate two decades of clinical, educational and research contributions to the field of neonatal medicine. The symposium, which will take place Friday, October 12, from 10 a.m. to 5 p.m. in Mount Zion's Herbst Hall, will feature Ruth Gross, the first full-time chief of pediatrics at Mount Zion, and several Mount Zion faculty presenting updates on research and results of clinical investigations.

The next day, on Saturday, October 13, all current and former Mount Zion ICN staff will be honored at a "Pink and Blue Ball" to be held in the Treasure Island Ballroom. For further information on either event, call 885-7489.

United Way Highlights: Agency Fairs and Good Raffle Prizes

You probably heard that the United Way campaign is taking place on campus from Monday, October 29, through Friday, November 9, and now you're wondering what activities are being planned to spark up interest and participation among Medical Center folks.

You'll be pleased to know that the Med Center United Way Committee chaired this year by clinical nurse specialist Laurie Carlson and Chaplain Rod Seeger has been meeting for weeks and the campaign wheels already are rolling.

In response to your question, "Will the raffle be back?" The answer is "Yes," and several top administrators have led the way with fine prizes: (Watch for updates. This list is bound to grow by leaps and bounds.)

- Bill Kerr: Weekend for two at Point Reyes Seashore Lodge
- Helen Ripple: Dinner for two at a San Francisco restaurant of your choice
- Patty Perry: A year's membership at your choice of several San Francisco museums
- Jackie Kuhn: A case of California wine
- Ron Schumacher: A gift certificate from Macy's

Also back this year will be the agency fairs, featuring representatives from organizations that benefit from United Way. The agency fairs were presented for the first time last year, and the committee assessed these mini-events in the Med Sci lobby as being a good way for people to gain first-hand knowledge of where their United Way dollars go.

This year there will be four fairs during the two-week campaign, including three events in the Med Sci lobby and another in the MCB lobby—all scheduled for the lunch hour. The plan, says Laurie, is to expand the carnival theme, which is to say there will be more snacks, for one—popcorn, of course, but possibly also cotton candy and hot dogs.

The fairs also will serve as the backdrop for the raffle drawings, which will be divided into four drawings instead of one big one at the end. This means, of course, that the sooner you make a donation, the more chances you will have to win something.

As the campaign approaches, we'll keep you apprised of the exact times and locations for the fairs, as well as the expanding prize list. In the next issue we'll also introduce you to some of the donor reps around the Medical Center. Meanwhile, let us introduce you to some key people on this year's committee: In addition to Laurie and Rod, there is Inez Wieging, donor rep training chair; Dennis Piper, publicity chair; Susan Alves-Rankin, agency fair chair; and Star Deppe, raffle chair.

Physical Therapy Open House October 10

In conjunction with National Physical Therapy Week the first week of October, the Medical Center's Physical Therapy Department is hosting an open house (with refreshments) on Wednesday, October 10, from 11 a.m. to 2 p.m. in the Physical Therapy gym in L 126.

The invitation is extended to all members of the UCSF community, in particular fellow members of the patient care team, says PT staff member Susan Stein. They look forward to a guest list that includes doctors, nurses, clinical nurse specialists, social services people, administrative staff and technical specialists.

The open house, she says, will give visitors an idea of the wide range of physical and occupational therapy services that can be provided by the department as part of the health care team.

Some examples of the exhibits, which will be presented by physical therapists from inpatient and outpatient services, include cardiac rehabilitation, hydrotherapy, pediatrics, and posture and body mechanics.

Russian Family Has Hope for New Careers Through UCSF

Late last year the Khamishon family—father, mother and two sons—left the Soviet Union for the United States to start a new life.

All four members of the family are doctors, but despite their high levels of education and professional stature, they felt themselves outsiders in a society where they were denied full citizenship because they are Jews. For the future of his children, says father Leonid, they made the decision to emigrate.

As refugees, the family was allowed to bring only two bags of belongings and the equivalent of $400. In addition to the material possessions they left behind, they had to leave something much more precious: their careers.

Leonid was an internist in the Soviet Union and mother Ludmila was a radiologist. Son Ilya, 25, was a psychiatrist and Boris, 23, was a general practitioner fresh out of medical school. Their licenses are not recognized by US boards, however.

Thus, they arrived in San Franicsco last January. Thanks to a one-year federal grant available to refugees and the help of local assistance programs, the family settled into a home in the Sunset district, and the senior Khamishons enrolled at John Adams Community College.

At mid-life, with a limited command of English—and in need of employment—the parents didn't have their sights set on practicing as physicians in this country. But their backgrounds certainly qualified them for jobs in the medical field. Toward this end they enrolled in the medical technician program at the college. A few days into the program, the students were encouraged to do volunteer work in a clinical setting in addition to the coursework. This is where UCSF entered the picture.

Sylvia Corpuz (center) assistant director of Nuclear Medicine's training program, surrounded by the Khamishon family: to the left, parents Ludmila and Leonid; to the right, sons Ilya and Boris.

Through the local Jewish Vocational Services, the Khamishons were referred to the Volunteer Services office here at the Medical Center. Volunteer Services' Vickie Kleemann hooked them up with Nuclear Medicine director Duffy Price, and Duffy signed them on.

"It was just about that time we were getting organized to start our training program again," says Duffy, referring to the department's nuclear medicine technologist training program that was terminated a couple of years ago due to budgetary restraints. A shortage of technologists resulted in a reconsideration, and it was decided to offer the program again this fall.

The Khamishons, who say they were very impressed by the department—both for its advanced technology and the way they were made so welcome by the Nuclear Medicine staff—heard about the training program and decided to apply.

"We knew the language barrier might be a bit of a problem," says Duffy, "but decided their backgrounds and enthusiasm would more than make up for it." Thus, the Khamishons were among the eight students accepted into the one-year, 40-hour-a-week program, which began September 10. Simultaneously, they are taking courses in English at John Adams College.

Meanwhile, what are the sons doing? They spend every day in our UCSF library, boning up in preparation for taking the series of tests they hope will lead to medical licenses in the US.

They call the library "the best of all possible places they could study," not only because of the breadth of material it offers, but again, because of the welcome they have received. Apparently Ilya and his younger brother Boris have become such fixtures, the staff know them by name. The good-natured pair, both fluent in English, joke that the library staff will probably be seeing them around for another 15 years, by the time they finally pass their boards.

Fifteen years is stretching it, no doubt immensely, considering they are putting in 10 and more hours a day of study. But there's also no doubt they're faced with a big task. They hang onto the hope they found when they moved here. Says Ilya, "In the Soviet Union, everything depends on who you know and who your relatives are. But here I think if I study hard today, I can be a doctor again tomorrow, because here I can control my own destiny."

19 Med Center Teams Will Compete for Director's Cup Oct. 6—Come Out & Root!

It looks like there's going to be plenty of competition at the Medical Center's Director's Cup Tournament on Saturday, October 6, at Crocker Amazon Field in San Francisco. Nineteen teams (including three from Mount Zion) have signed up to compete for what every department dreams of having for its display case: The glorious Director's Cup, one for volleyball and one for softball.

Right now Medical Records holds the Cup for volleyball. They'll be competing against 10 other teams to try to keep it, including the ACC team (which narrowly lost out last time), Nutrition & Dietetics, the OR, both the UCSF and Mount Zion Environmental Services departments, 7 Long, 12 Long, 14 Long, Clinical Labs and the Blood Bank.

Softball Cup holders Nutrition & Dietetics will compete against seven other teams to try to keep their prize: ACC, the OR, Transport, UCSF and Mount Zion Environmental Services departments, Mount Zion Marketing and HISD.

The games will begin at 9 a.m. and probably run through most of the day. If you're not playing, bring your family and a picnic and come cheer on your favorite team! Check with your department's team captain to see what time your colleagues will be playing.

If your department is not competing, you're still perfectly welcome to come be a spectator. Crocker Amazon Field is located at Geneva and Moscow Streets in San Francisco. From 101 North or South take the Brisbane/Cow Palace exit; merge to Bayshore; go six or seven blocks to Geneva and turn right; go about 20 blocks to the intersection of Moscow. (From 280 North take the Geneva exit, turn right on Geneva.)

"Team UCSF" Bound for Transplant Games

More than 30 men and women who received kidney or liver transplants at UCSF will be traveling to Indianapolis next month to compete in the 1990 US Transplant Games.

As a matter of fact, "Team UCSF" will make up one of the larger contingents at the four-day competition, which runs from October 5 through 8 and features nine different athletic events. About 500 people from around the nation are expected to compete, all of whom have made the remarkable transformation from invalids to athletes.

One of the organizers of "Team UCSF" is Randy Stafford, a third-year medical student at UCSF who received a kidney transplant here six years ago—and now trains rigorously as a bicyclist.

Another team member, Jerry Benterou of of Livermore, was near death from liver disease last spring and received his new liver in May. Just four months later he is bicycling 15 to 20 miles per day and plans to compete in both the biking and swimming events. The way he describes the Transplant Games is "a way for patients to celebrate the new life and energy they've been given by their new organs."

UCSF transplant recipients probably have the jump on other recipients when it comes to training. Patients actually begin training here less than a week after receiving a new organ, thanks to a totally unique transplant rehabilitation program coordinated by exercise physiologist Trish Painter. (You may remember an earlier story in *Medsounds* which expounded on the fact that UCSF houses the only transplant center in the country with a transplant rehabilitation specialist on staff.)

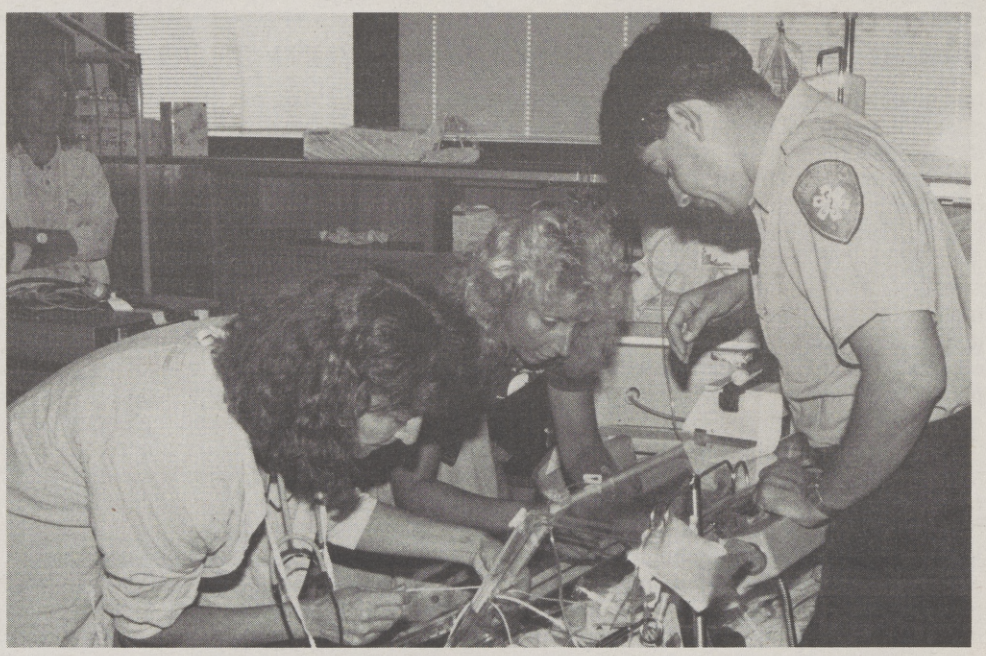
Hopefully, a future issue of the paper will feature a team photo of our transplant athletes. At very least, we'll let you know how we came out at the games. Stay tuned.

Still Seeking Health Fair Volunteers

Volunteers are needed to serve in all capacities, from host to tour guide, for the Children's and Family Health Fair on Saturday, October 20. If you can spare a couple of hours that day for a fun and worthwhile cause, please call Volunteer Services immediately, 476-1196.

Of course, whether or not you volunteer, you and your family are invited to attend this huge, lively, something-for-everybody event from 10 a.m. to 3 p.m. inside and outside Millberry Union. Look in next issue of *Medsounds* for another reminder and a preview of the agenda.

Mount Zion ICN Moves; "End of an Era" Events Planned



Nurses Maureen Buick from Mount Zion (foreground) and Jean Reimer from UCSF oversee the delicate business of transferring a baby from crib to isolette for the journey across town.

On Monday, September 17, the babies from the Mount Zion intensive care nursery were moved to the Parnassus site, one at a time via ambulance, each baby accompanied by Mount Zion and UCSF nurses and a whole battery of equipment-bearing personnel.

As of early afternoon, all the babies were moved, and the staff and their tiny patients were settled into their new home. The event marked the consolidation of the two ICNs, another step in the Mount Zion/UCSF Joint Perinatal Program initiated in 1988.

Children's medical care programs remaining at Mount Zion include its Pediatric Inpatient Unit, Pediatric Outpatient Clinic, and the High-Risk Infant Followup Program, with support from the Mount Zion social services department. The ICN followup programs of Mount Zion and UCSF are now combined and located at Mount Zion. In addition, construction is underway at Mount Zion for a new Pediatric Rehabilitation unit.

The new ICN arrivals currently are housed in the site of the former PICU on 6 Moffitt North, while the west wing of 15 Moffitt is being readied. As you may know, the ICN is under-going major reconstruction to update the unit and accommodate the merger. The first phase—the west wing—will be ready November 1. The entire project, according to nursing assistant director Sue Flanagan, is scheduled for completion the latter part of 1991.

When finished, the unit will accommodate 50 intensive care and intermediate care beds. (The former unit housed 39 beds.)

The merger brings approximately 35 nurses from Mount Zion—which brings the total ICN nursing staff to about 130. While the advantages of consolidating the ICN services into a central site are apparent, says Cassandra Robertson, who served as nurse manager for the Mount Zion ICN for the past 10 years, the move was still an emotional time for most of the staff—some of whom had worked at Mount Zion two or more decades.

According to pediatrician Roberta Ballard, coordinator of the Joint Perinatal Program, two events have been planned to bid farewell to the hospital's ICN and recognize its contributions over the years.

The first is an "End of an Era" symposium
